

STUDENT ENROLLMENT

It is the policy of the board of education that children who are at least four (4) years of age but not more than five (5) years of age on or before September 1 and have not attended a public school kindergarten may be enrolled in either a half-day or full-day (if offered) non-compulsory, early childhood program free of charge. No child shall be enrolled in Kindergarten unless the child has reached five years of age on or before the first day of September of the year the child intends to enroll. No child shall be enrolled in the first grade unless the child will have reached the age of six (6) on or before September 1 of the school year. Age may be verified by either a birth certificate, parent's statement, a physician's statement, or previous educational records.

The superintendent or designee will be responsible for the receipt of all applications for admission, the conduct of registration procedures and for certification that all admission requirements and prerequisites have been properly met by the student.

Termination of attendance before graduation from high school or before reaching the age of 18 may be permitted by mutual consent of the superintendent and the parent, legal custodian, or legal guardian of the student.

STUDENT RESIDENCY

The district is established for the purpose of serving the educational interests of resident students.

Definitions

For purposes of this policy, the terms listed below have the following meanings:

"Residence," "residency" and "legal residence" mean the student's present place of abode, provided that it is a place where important family activities (such as sleeping, eating, working, relaxing, and playing) take place during a significant part of each day. Mere presence alone is not sufficient to establish residency. Documentary evidence that may be submitted to establish residency is identified below.

"Person having legal custody" means a person who is legally responsible for the care of the child pursuant to: the order of a court, a proper attorney-in-fact affidavit, or placement by a governmental agency responsible for making custody determinations and/or placements.

Basic Residency Requirements

State law provides that a child's residence for school purposes is the school district in which the (1) parents, (2) guardian or (3) person having legal custody of the child holds legal residence. Children may also establish residency if their attorney-in-fact is a resident of the district.

The district does not permit students to establish residency based on the affidavit of a person who has assumed permanent care and custody of the child under OKLA. STAT. tit. 70 § 1-113.

Procedure for Resolving Residency Disputes

The district recognizes that there may be occasions when there is a dispute regarding residency. Upon enrollment in the school system the district will verify that the student is a resident of the district or is otherwise entitled to attend school in the district for any reason authorized by law. As a part of this verification process the district will obtain an address from each student or the student's parent, guardian, or person having legal custody of the child. In providing an address to the district that is within the district's boundaries the student and student's parent, guardian, or person having legal custody of the child represent that this address is the student's residence. The district may also require, in order to verify residency, certified copies of court orders, guardianship documents, written agreements and affidavits relating to the care, custody and control of the student and any other information the district deems relevant.

If at any time a district administrator has a reasonable belief that the reported residence may not be the residence of the child for purposes of school attendance, the administrator

shall notify the student's parent, guardian, or person having legal custody of the child that there is a question regarding the student's legal residency. The student's parent, guardian, or person having legal custody of the child shall be given an opportunity to submit information regarding the student's residency to the district's residency officer. All notices required by this policy shall be in writing. Additionally, reasonable alternative arrangements for documenting communications will be made for those persons who are visually impaired or otherwise unable to communicate in writing.

Information or documentation to prove student residency in the district shall include but not be limited to proof of provision of utilities, payments of ad valorem taxes, local agreements or contracts for purchasing/leasing housing, driver's licenses, income tax returns, notes, mortgages, contracts and any other source of proof that is not in conflict with statutory provisions relating to the residence of students.

Any question or dispute as to the residence of a student not deemed to be a "homeless student" shall be determined by the residency officer and the board of education pursuant to the following procedures:

1. The student's parent, guardian, or person having legal custody of the child must notify the residency officer in writing of the review request within three (3) school days from the date of written denial of admittance or from the date of written notification that the student is considered not to be a resident of the district. Upon receipt of a request for review, the residency officer shall allow the parent, guardian, or person having legal custody to provide additional pertinent information in accordance with the district's criteria and the statutory provisions regarding residency. This information must be submitted with the request for review.
2. The residency officer must render a decision and notify the student's parent, guardian, or person having legal custody of the child of the decision and reasoning therefore in writing within three (3) school days of receipt of the request for review.
3. If the student's parent, guardian, or person having legal custody of the child disagrees with the residency officer's decision, such person shall notify the residency officer in writing within three (3) school days of his or her receipt of the residency officer's decision. The residency officer will submit his or her findings and all documents reviewed to the board of education. The board of education will review the decision and the documents submitted on behalf of the district and the student and will render a decision at the next board meeting. The decision of the board of education shall be the final administrative decision.
4. In an effort to place students in school as quickly as possible, timelines shall be followed unless due to emergency circumstances both parties agree to an extension of timelines.

Miscellaneous Policy Provisions

Hearings involving more than one student where students are related or residing in the same household may be consolidated at the discretion of the residency officer and the board of education.

If the residency dispute involves an 18-year-old student, all notices will be delivered to the student.

If already enrolled and attending school in the district, a student or students involved in a dispute related to the student's residency may remain in school until available appeals are exhausted when the student or the student's parent, guardian, or person having legal custody of the child has filed an appeal in the manner and within the time permitted by this policy.

The residency officer shall be in charge of maintaining the files related to a residency dispute, ensuring that the principals or others directly involved in such a dispute forward their records of the dispute following their involvement, and otherwise keeping all communications involving the dispute intact.

The district's residency officer is the site principal

The board of education understands that there may be some instances where residency may be established on a date other than the date the student was enrolled in the district. For any period during which a student is enrolled in the district, but is not a resident of the district, the district may charge tuition if it is established that the student's parent, guardian, or person having legal custody of the child knew or should have known that the child or children who are the subject of the residency dispute were not residents of the district. The tuition shall be based on a per capita cost of educating a student in the district during the preceding year. This issue may be raised along with other issues related to the residency dispute and shall be heard in the same manner.

The district shall provide for educational services for homeless children as required by law.

The district reserves the right to require reverification of student residency at the beginning of each school term.

A copy of this policy shall be provided to the student's parent, guardian, or person having legal custody of the child as soon as possible following the inception of any residency dispute.

Special Definitions and Procedures Applicable to Homeless Children and Youth

Definitions

"Homeless children and youth" means students who lack fixed, regular and adequate nighttime residence, and includes:

1. children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; are abandoned in hospitals; or are awaiting foster care placement;
2. children and youth who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;

3. children and youths who are living in cars, parks, public spaces, buildings, substandard housing, bus or train stations, or similar settings; and
4. migratory children (as such term is defined in section 1309 of the Elementary and Secondary Education Act of 1965) who qualify as homeless.

Enrollment, Records and Immunizations

Federal law provides that homeless children and youth, individually or through a parent or guardian, may choose to attend the school in the area in which they are currently living. The district's residency officer will determine whether a student is a homeless child or youth for purposes of establishing residency and promptly advise the parent, guardian or person having legal custody of the child of the decision, both orally and in writing, if possible. If there is no such person, the residency officer will advise the student. The district will enroll each homeless student and permit his or her full participation in all school programs, whether or not the student is accompanied by a parent, guardian or person having custody of the child, and without proof of residence, current immunizations and traditional enrollment documentation, such as school records and medical/immunization records. The district's homeless liaison may assist the student and school in obtaining those items. A parent, guardian or person having legal custody of the child who disagrees with the residency officer's determination may appeal the decision to the board of education under the procedure identified in this policy. If there is no parent, guardian or person having legal custody of the child available, the student may appeal the decision.

Appeals Procedures

The district will make every effort to resolve disputes regarding homeless children at the lowest level possible by utilizing the following process:

1. At the time a homeless student seeks enrollment, the district will notify the student or his/her family of these procedures and provide the student/family with a copy of this policy.
2. The district will promptly notify the district's homeless coordinator that a homeless student seeks enrollment, and will seek to involve the coordinator in decisions regarding the student's education.
3. Students/families who disagree with a decision regarding the student's education may meet with the coordinator for an informal resolution. The coordinator will notify the student/family that a written complaint may be submitted within five (5) days (or longer if agreed upon by the parties).
4. If the coordinator receives a written complaint, the coordinator will prepare a decision (plan of action) and provide it to the student/family within five (5) days of receipt of the written complaint. The coordinator will also notify the student/family of the right to appeal to the superintendent.
5. Students/families who are still dissatisfied with a decision regarding the student's education may file a written appeal with the superintendent within five (5) days of receipt of the coordinator's plan. The superintendent will meet with the student/family within five (5) days of receipt of the appeal. The superintendent will issue a decision within five (5) days of the meeting with the student/family. The

superintendent will also notify the student/family of the right to appeal to the board of education.

7. Students/families who are still dissatisfied with a decision regarding the student's education may file a written appeal with the board of education by submitting a written notice to the superintendent within five (5) days of the superintendent's decision. The appeal will be placed on the next agenda (or the following agenda, if the appeal is received after the agenda posting deadline) and the board's decision is final at the district level. Students/families who are still dissatisfied with a decision regarding the student's education may file an appeal with the Oklahoma State Department of Education utilizing the procedures established by the OSDE.

Special Definitions and Procedures Applicable to Transitioning Military Children

"Children of military families" means a school-aged child(ren), enrolled in kindergarten through twelfth grade, in the household of an active duty member.

"Active duty" means full-time duty status in the active uniformed service of the United States, including members of the National Guard and Military Reserve on active duty orders pursuant to Title 10, Sections 1209 and 1211 of the United States Code.

"Military student" means the child of a military family for whom the local education agency receives public funding and who is formally enrolled in kindergarten through twelfth grade.

"Transition" means (a) the formal and physical process of transferring from school to school or (b) the period of time in which a student moves from one school in the sending state to another school in the receiving state.

"Sending state" means the state from which a child of a military family is sent, brought, or caused to be sent or brought.

"Receiving state" means the state to which a child of a military family is sent, brought, or caused to be sent or brought.

"Uniformed service(s)" means the Army, Navy, Air Force, Marine Corps, Coast Guard as well as the Commissioned Corps of the National Oceanic and Atmospheric Administration and Public Health Services.

Establishing Residency

State law provides that transitioning military children placed in the care of a noncustodial parent or other person standing in loco parentis, may attend school in the school district in which the noncustodial parent or person standing in loco parentis to the transitioning military child holds legal residence. Similarly, transitioning military children placed in the care of a noncustodial parent or other person standing in loco parentis may continue to attend the school in which the student was enrolled while residing with the custodial parent. A special power of attorney relating to the guardianship of a military child and executed under applicable law shall be sufficient for purposes of enrollment and all other actions requiring parental participation and consent.

Enrollment

The district will promptly accept unofficial or “hand-carried” educational records and transcripts in lieu of official education records and transcripts for transitioning military children. Upon receipt of such records, the district will promptly enroll the transitioning military child. However, upon enrollment, the district will request official educational records and transcripts from the school in the sending state. The district’s residency officer will determine whether a student is a transitioning military student for purposes of establishing residency and promptly advise the parent or other person standing in loco parentis of the decision, both orally and in writing, if possible. A parent or other person standing in loco parentis who disagrees with the residency officer’s determination may appeal the decision to the board of education under the procedure identified above.

Grade Level Placement

Transitioning military children, including children entering kindergarten, shall be able to enroll in the same grade level in which they were enrolled in the sending state, regardless of age, time of transfer or age requirements of the receiving state.

Course Level and Educational Program Placement

To the extent that this district is in a receiving state, the district may subsequently perform course placement and educational program evaluations of a transitioning military student. However, the district will initially place the transitioning military student in courses and programs comparable to those in which the student was a participant while in the sending state, including, but not limited to, Honors, International Baccalaureate, Advanced Placement, Gifted and Talented, English as a Second Language, Special Education and vocational, technical and career pathway courses. The district will make these accommodations whether or not the student has fulfilled the necessary prerequisites in the district or receiving state.

Extracurricular Activities

When appropriate, the district will provide transitioning military children the opportunity to participate in extracurricular participation, regardless of application deadlines.

Immunizations

Transitioning military children shall have thirty (30) days from the date of enrollment to obtain any immunizations required by Oklahoma law. For a series of immunizations, such children must obtain initial vaccinations within thirty (30) days.

Tuition

The district may not charge tuition to a transitioning military child placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a school district other than that of the custodial parent if the parent or other person standing in loco parentis lives within the boundaries of this district.

OPEN TRANSFERS

A request for a transfer into this district initiated by or on behalf of a nonresident student will be approved or refused in accordance with this policy. The transfer of a student whose resident district does not offer the grade the student is entitled to pursue will be approved IF the student resides within the transportation area of this district.

Criteria For Approval Or Denial Of Regular Transfers

The fact that the district has adopted an open transfer policy does not mean that every transfer application will be accepted. A transfer will be denied if the administration determines the transfer would detract from the educational experience of currently enrolled students or place additional financial or space burdens upon the district.

A transfer application will **NOT** be approved if this district does not:

1. Provide the courses/educational program(s) in which the applicant desires to enroll or in which this district deems the student is required to enroll in order to comply with state and federal laws and regulations.
2. Have adequate facilities to provide the courses/educational program(s) in which the applicant desires to enroll or in which this district deems the student is required to enroll in order to comply with state and federal laws and regulations.
3. Have adequate space for the student in the courses/educational program(s) in which the applicant desires to enroll or in which the district deems the student is required to enroll in order to comply with state and federal laws and regulations. The administration may reserve preferred space for resident students or new resident students reasonably anticipated to move into the district during the school year. Thus, the district may deny a transfer if approval would result in:
 - A. Placing a financial or education burden on district facilities or staff in the courses/educational programs the student would attend; or
 - B. Exceeding class size limitations set by state law or district policy in such courses; or,
 - C. Exceeding a percentage of such class size limitations as set by the superintendent or designee. The administration may determine that a percentage of class size mandates should be reserved for later resident enrollment to prevent the exceeding of class size limits later in the school year due to additional enrollment of reasonably anticipated new resident students.

4. Have current personnel needed to provide the grade/courses/programs in which the applicant desires to enroll.

A transfer will **NOT** be approved if the student:

1. Has a disciplinary record which provides a reasonable basis to determine the applicant would present a discipline problem if enrolled. Such a reasonable basis will exist if school discipline or court records of the student, from any public or private school within or without the State of Oklahoma or any court within or without the State of Oklahoma, show the student at any time:
 - A. Has violated school regulations;
 - B. Has committed an act commonly regarded as being immoral;
 - C. Has been adjudicated as a delinquent for either a violent or nonviolent offense under relevant Oklahoma law;
 - D. Has been convicted as an adult for either a violent or nonviolent offense under relevant Oklahoma law;
 - E. Has committed on school property, in school transportation, or at a school event a violent act or an act showing deliberate or reckless disregard for the health or safety of faculty or others;
 - F. Has possessed on school property, in school transportation, or at a school event an alcoholic beverage, low-point beer as defined by relevant Oklahoma law, , or missing or stolen property found to have been taken from a student, school employee, or the school during school activities; or,
 - G. Has possessed on school property, while in school transportation, or at a school event a dangerous weapon or a controlled dangerous substance as defined by relevant Oklahoma law, or a prescription or non-prescription mood altering substance.

A transfer will **NOT** be approved if the applicant:

1. Fails to complete the Application Form (**ATTACHMENT A**), provide the district with sufficient educational records, or inform the district in detail of the grades/courses/programs in which the student desires to enroll or participate if the application is accepted so that the criteria above can be applied within the time deadlines set by law for the approval or rejection of a transfer. All such records must be supplied to the district in time for district personnel to make a reasonable review of such records in applying the approval/denial criteria set by this policy. This is particularly important for students with disabilities because all documentation of the resident district will need to be reviewed to make a preliminary determination as to whether the district has the appropriate programs, staff, and services to provide the applicant with the education and services set forth in the student's IEP or Section 504 Accommodation Plan, and, if a preliminary approval determination is made, to prepare for and conduct a joint IEP or Section 504

conference with the resident district prior to any final approval or rejection of the transfer application. All applicants must consent in writing to the release of educational records from previous schools attended, and applicants for students with disabilities must consent in writing to forward to this district whatever confidential records this district deems is necessary to review in applying the approval/denial criteria of this policy. The superintendent or superintendent's designee has authority to amend **ATTACHMENT A** by regulation to include additional information needed to review an application request.

2. Fails to timely submit a completed application; or,
3. Provides incorrect information on the application request.

Delegation Of Approval Authority To Superintendent Or Superintendent's Designee

The board of education delegates to the superintendent or the superintendent's designee authority to approve or deny a transfer application pursuant to the criteria listed in this policy.

Time Of Receipt Of Applications Determines Order Of Review

Transfer requests will be numbered as received, and the district shall consider requests on a "first-come, first-serve" basis. All transfer applications received by this district shall be dated and time-stamped. Any currently enrolled district student for whom a regular transfer has been approved in the past and any sibling of such student will be given priority if an application is filed before May 31st, and the "first-come, first-serve" list will be compiled only after such current students and their siblings have been placed on the list.

Nondiscrimination

The district shall not accept or deny a regular transfer application based upon the student's race, color, sex, national origin, religion, disability, veteran status, sexual orientation, age, genetic information, income level, disabling condition, proficiency in the English language, measure of achievement, aptitude, or athletic ability. Failure to meet the criteria in this policy for approval will not be deemed to be rejection for a discriminatory reason.

Students With Disabilities

If a student with a disability applies for a transfer, the student must supply all documentation of the resident district relating to the student's previous and current IEPs and Section 504 Accommodation Plans so that this district may:

1. Determine whether the district currently has appropriate programs, staff, services and placement needed to fulfill the current or anticipated IEP or Section 504 Accommodation Plan of the student; and
2. If a preliminary determination is made that the district has the appropriate programs, staff, services and placement needed to fulfill the current IEP or Section 504 Accommodation Plan of the student if the transfer application is approved, conduct the statutorily-required joint IEP or Section 504 conference

with the district of residence before a final determination of approval or denial is made.

Notwithstanding the provisions of this policy, students with disabilities may be educated in this district pursuant to special education cooperative agreements between this district and other school districts. Such transfers will not be deemed to be parent-initiated or student-initiated transfer applications governed by this policy.

Time Deadlines For Regular Transfers

An application for a regular transfer must be submitted on a form approved by the State Board of Education, completed by the parent or person having custody of the student, and filed with the district's superintendent not later than May 31st of the school year preceding the school year in which the transfer is requested. On or before May 31st of the school year preceding the school year in which the transfer is requested, the district will notify all resident school districts that an application for the transfer has been filed by a student enrolled in the resident school district. This district shall approve or deny the application by July 15th and shall notify the parents of the students, in writing, of the decision. If the transfer is approved, the student/parent have until August 1 to notify this district, in writing, that the student will be enrolling in this district. **Failure of the parents to notify this district as required, in writing, may result in loss of the student's right to enroll in this district for the ensuing school year.** By September 1, this district will inform the State Board of Education and the resident district, in writing, of the students who have been granted transfers and their grade levels.

Athletic and Other Competition

A transfer student, other than a student granted an emergency transfer, will not be eligible to participate in school-related interscholastic competition governed by the Oklahoma Secondary School Activities Association ("Association") for a period of one year from the first day of attendance at this district, unless the transfer is from a school district not offering the grade the student is entitled to pursue. Whether a student granted an emergency transfer will be eligible to participate in school-related interscholastic competition shall be determined by the Association.

Emergency Transfers

Students may be granted a transfer on an emergency basis. The parent or person with custody must submit a completed application to the superintendent or superintendent's designee on a form approved by the State Board of Education. On an adequate showing of an emergency, the superintendent may approve a transfer, subject to approval of the State Board of Education. An emergency shall include proof provided by the parent of:

1. The inability of the resident district to provide an education to the transfer applicant due to the destruction or partial destruction of a school building attended by the student; or
2. The inability of the resident district to offer the subject the student desires to pursue, PROVIDED the student became a legal resident of this receiving district after February 1 of the school year immediately prior to the school year for which the pupil is seeking the transfer; or

3. A catastrophic medical problem of the student, which means an acute or chronic serious illness, disease, disorder or injury which has a permanent detrimental effect on the body's system or makes the risk of harm unusually hazardous, such that removal from the resident district is medically needed; or
4. The total failure of the resident district to provide transportation to and from school; or
5. The concurrence of both the resident school district and this receiving district; or
6. The unavailability of remote or on-site Internet based instruction by course title in the resident district for a student identified in need of drop-out recovery or alternative education services as a result of the resident district's intake and screening procedures, PROVIDED the student was enrolled at any time in a public school of this state during the previous three (3) school years; or
7. The unavailability of a specialized deaf education program for a student who is deaf or hearing impaired. In coordination with the parent of a transferring student, a transfer on this ground may be processed and treated as an IEP Service Agreement; or
8. The student having been a victim of bullying which was reported to the sending school district. Prior to granting a transfer pursuant to this ground the district will verify that the student was the victim of bullying as defined by the statute and that the sending school district received a report of bullying.

Applications for approval of an emergency transfer will not be deemed complete and submitted to the district for consideration until the parent has submitted to the district both (a) the State Board of Education approved emergency transfer application, and (b) the parent signed **ATTACHMENT B**, which will cancel the transfer if the conditions stated in the Attachment occur. This district shall have complete discretion as to whether to approve or not to approve an emergency transfer which is based upon prior approval of the resident district.

Prior to cancelling an emergency transfer, this district will notify the parent, in writing, of the date and time when the superintendent or superintendent's designee will be considering the transfer's cancellation.

Approval Of A Transfer Requires Agreement For Cancellation Of Transfer

Approval by this district of any transfer is contingent upon the applicant agreeing, in writing, to cancellation of this transfer by the district during the school year if the student does not comply with the rules and regulations of this district for student behavior, or if the family of the transferred student fails to remain current in financial obligations owed to the district, including, but not limited to, payment for lunches or lost or destroyed district property. The board of education hereby delegates to the superintendent or the superintendent's designee authority to cancel any transfer previously granted by the board of education upon a determination that cancellation is appropriate. The consent form is attached as **ATTACHMENT B**, which may be amended by administrative regulation.

**Students Seeking A Transfer From A Non-Accredited School Or A Home School
Only Will Be Granted Provisional Approval Pending Review Of
Test Results And Application Of Policy Criteria To The Placement Deemed Appropriate**

Students currently enrolled in a private school not accredited by a state agency or in a home school are not guaranteed enrollment in the grade/programs/courses in which the applicant desires to enroll. Students desiring to transfer from private schools not accredited by a state agency or from a home school will be required to take all placement tests required of resident students enrolling in the district after attendance in private schools not accredited by a state agency or home schools, and the administration will decide the appropriate placement primarily upon placement test results as per district policy. Accordingly, students applying for a transfer from such schools will be granted a provisional transfer until: (a) test results are reviewed to determine the appropriate grade/courses/programs for the applicant; and (b) the criteria of this policy is then applied to determine if the applicant is eligible for transfer approval. An applicant who does not agree to accept placement based upon such test results and criteria review will be deemed ineligible for an approved transfer and the provisional transfer will be of no effect.

Acceptance Of Assignment Required; Subsequent Change Needs Administrative Approval

Because approval of transfers is based upon criteria of sufficient programs, staffing, and space needs for the particular applicant, a transfer student must accept the school site, courses, and programs to which the student is assigned by the administration. A transfer student will not be allowed, at the time of or after enrollment, to change the grade/courses/programs in which the student state he/she desired to enroll on the transfer application without specific written permission from the superintendent or superintendent's designee. It will be the responsibility of the transfer student or parent to inform the school official from whom approval for a new assignment is requested that the student is a transfer student, and failure to do so will result in cancellation of the transfer unless excused by the superintendent or designee.

ATTACHMENT B
Transfer Student Consent to Cancellation of Transfer

The undersigned, who is **not** a resident of this district, recognizes:

1. That the undersigned non-resident student has a right by law to attend the school district of residence;
2. That the non-resident student desiring to enroll in this district has **no** statutory right to attend this district;
3. That the district is not required to accept this transfer application; and,
4. That the district does not desire to accept a transfer of a student who will detract from the educational process of resident students or take the place of another transfer applicant who would not detract from that process.

The undersigned hereby agrees that if the district approves a transfer allowing the undersigned student to enroll in this district, the administration of the district has the consent of the undersigned to cancel the transfer during the approved enrollment school year if:

1. The student fails to comply with student behavior rules set by the district, school, or teacher;
2. The parent(s), or student 18 years of age or older, fails to promptly pay financial obligations owed to the district, including payments owed, but not limited to, school lunches and for lost or destroyed district property; or,
3. The student does not have a valid excuse for failure to attend school.

The undersigned also is informed that this consent to cancellation is a necessary component for continued enrollment after transfer acceptance, and thus the consent may not be withdrawn at any time in the future.

The undersigned also understands that although the administration will notify the parent(s), or student 18 years of age or older, of any cancellation, the undersigned understands and agrees that the determination of the administration that a cancellation is to be effected will be final, that the undersigned will have **no** right to appeal that determination to the board of education, and that after cancellation, the administration will send the educational records of the student to the student's resident school district or to such other school district as the undersigned directs.

By signing this agreement, I affirm that I have read and understand the above conditions concerning acceptance of the transfer application and my consent to district authority to cancel the transfer, if granted, for the reasons stated above.

EXECUTED this ____ day of _____, 2_____.

**TRANSFERS PURSUANT TO THE
DEPLOYED PARENTS SCHOOL ACT OF 2013**

The district will grant a transfer to a student of a military family if the following criteria are met:

1. Oklahoma is the home state of record for the student; and
2. The student's parent is a member of the active U.S. uniformed military service on full-time active duty; or the parent is a member of the military reserves on active duty; and
3. At least 1 parent has a Department of Defense issued ID card; and
4. At least 1 parent provides evidence that he/she will be on active duty status or orders for at least 30 consecutive days; and
5. The student will be living with a relative residing in the district or moving into the district within 6 months of the application.

In order to be granted a transfer pursuant to the Deployed Parents School Act of 2013 ("Act"), a student/parent must submit a completed application form with supporting documentation. The superintendent is authorized to approve such transfers on behalf of the board of education and to notify the board at the next regularly scheduled meeting that a transfer pursuant to the Act was accepted.

In lieu of applying for a transfer under the Act, students of military families may also establish residency in the district and enroll in the district as outlined in the district's residency policy.

46. Vulgarity
47. Willful damage to school property
48. Willful disobedience of a directive of any school official

In addition, conduct occurring outside of the normal school day or off school property that has a direct and immediate negative effect on the discipline or educational process or effectiveness of the school, will also result in disciplinary action, which may include in-school placement options or out-of-school suspension. This includes but is not limited to electronic communication, whether or not such communication originated at school or with school equipment, if the communication is specifically directed at students or school personnel and concerns harassment, intimidation or bullying at school.

School Safety and Bullying Prevention Act (OKLA. STAT. tit. 70, § 24-100.2)

The Oklahoma Legislature established the *School Safety and Bullying Prevention Act* with the express intent of prohibiting bullying in all schools. In addition to the prohibition listed in the student discipline code, above, the board has adopted a separate policy prohibiting bullying and outlining the district's plan to address it.

Sample Disciplinary Options

- *Instructor or Administrator Intervention*

May include, but is not limited to: warning conference with student, parent conference, referral to counselor, behavioral contract, restriction of privileges, requirement of corrective action by student, changing student's seat or class assignment, involvement of local authorities or agencies, or other appropriate action as required or indicated by the circumstances.

- *Detention or In-School Intervention*

Detention is a correctional measure used when it is deemed appropriate. Students are to report to the appropriate teacher/principal at the specified time with class work to be studied. Detention may be assigned on a week-day or on a Saturday, as deemed appropriate.

- *Alternative In-School Placement*

Alternative in-school placement is an optional correctional measure that may be used by the school when deemed appropriate. It involves assignment to a school site, designated by the school, for a prescribed course of education as determined by school representatives.

- *Corporal Punishment – Optional Section*

Corporal punishment may be administered at the discretion of the school administration. Prior to administering corporal punishment, the administrator will explain to the student the offense he/she is alleged to have committed and allow the student to explain his/her version of events.

Corporal punishment must be administered by a school administrator in a private office area with another certified employee serving as a witness. If possible, the witness will be the same gender as the student. Corporal punishment will only be administered to a student's buttocks with a finished wooden paddle after the student has emptied his/her pockets. No student will receive more than 3 swats per incident,

and no more than 3 swats per day. The corporal punishment must be reasonable in force considering the student's age, sex, physical and mental condition, whether the force was degrading and the likelihood of permanent harm to the student. As to any special education student, the person administering the corporal punishment must first determine that such punishment is not prohibited by the student's IEP or 504 plan.

A report must be completed by the administrator and signed by both the administrator and the witness. The report will specify the infraction, the number of swats given, the date, time and location of the corporal punishment and the name and position of the witness.

Parents who object to the use of corporal punishment for their student must notify the school principal, in writing, at the beginning of each school year.

- *Out of School Student Suspension*

Students may be suspended out of school pursuant to the district's policy regarding student suspension.

Student Privileges While Under Suspension

Participation in the extracurricular activities of the school is a privilege and not a right. Accordingly, when a student's behavior results in a determination by the principal to impose disciplinary or other correctional measures against a student, the student will not be permitted to participate in any extracurricular activities offered by the school during the term of the discipline unless, in the sole judgment of the principal, such participation is appropriate given the nature of the offense committed by the student.

"Extracurricular activities" include, but are not limited to, all school sponsored teams, clubs, organizations, ceremonies, student government, band, athletics and all other school sponsored activities and organizations.

STUDENT SUSPENSION
(Out-of-school)

This policy applies only to out-of-school suspensions and, unless otherwise noted, all references to "suspension" in this policy mean out-of-school suspension. References to "parent" in this policy means a student's parent(s) or legal guardian(s). References to "principal" means the school principal or staff member to whom the principal has delegated the responsibility for student discipline.

Behavior or Conduct that May Result in Suspension:

Students may be suspended for:

1. violation of a school regulation;
2. possession of an intoxicating beverage, low-point beer, as defined by OKLA. STAT. tit. 37, § 163.2, or missing or stolen property if the property is reasonably suspected to have been taken from a student, a school employee, or the school during school activities;
3. possession of a dangerous weapon or a controlled dangerous substance while on or within two thousand (2,000) feet of public school property, or at a school event, as defined in the Uniform Controlled Dangerous Substances Act. Possession of a firearm shall result in suspension as provided in the district's policy related to firearms;

Students who are suspended under categories 1 or 2 will be provided with an education plan as outlined below. No education plan will be required for students who are suspended under category 3.

Violent Acts Toward School Personnel

Any student in grades 6 through 12 found to have assaulted, attempted to cause physical bodily injury, or acted in a manner that could reasonably cause bodily injury to a school employee or person volunteering for the school shall be suspended for the remainder of the current semester and the next consecutive semester. For good cause and considering the totality of the circumstances, the district's superintendent or designee may modify the term of the suspension. Final action as to any such suspension, including its term, remains with the board of education or designated hearing officer, pursuant to a timely appeal.

Students suspended for a violent offense directed toward a classroom teacher shall not be allowed to return to the teacher's classroom without the teacher's prior approval. Whether an offense is considered a violent offense, requiring an affected teacher's approval as a condition of return to a particular classroom, shall be based on applicable provisions of the

Oklahoma school law regarding student suspension and applicable Oklahoma criminal law distinguishing between violent and nonviolent offenses.

District's Obligations Prior to Suspension

Before the district recommends suspension, other disciplinary options will be considered, including but not limited to: placement in an alternative school setting, reassignment to another classroom, and detention. The district will provide additional procedural safeguards as required by law for students identified as having disabilities under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act/Title II of the Americans with Disabilities Act.

Pre-Suspension Conference

When a student engages in behavior or conduct that may result in suspension the principal shall conduct an informal conference with the student.

At the conference the principal shall read the policy, rule or regulation that the student is charged with having violated and shall discuss the student's conduct. The student shall be asked whether he/she understands the policy, rule or regulation and be given a full opportunity to explain and discuss his/her conduct.

If the principal concludes that suspension is appropriate, the student shall be advised that he/she is being suspended and the length of the suspension. The principal shall immediately notify the parent by phone and in writing that the student is being suspended and that other disciplinary options were considered and rejected. The written notice will state which alternative disciplinary options were considered and why they were rejected. Elementary and middle school students shall not be dismissed before the end of the school day without advance notice to the parent.

A student may be suspended without a pre-suspension conference only in situations when the principal reasonably believes that the student's continued presence in the building will constitute an immediate danger to the health or safety of students, school employees, school property, or would be a substantial disruption of the educational process. In such cases, a conference with the student and parent will be scheduled as soon as possible after the student has been removed from the building.

Conferences with Parents

The principal will seek to hold a conference with the parent as soon as possible after the suspension has been imposed. The parent should be advised of his/her right to a conference with the principal at the time he/she is verbally notified that a suspension has been imposed. The conference will be held during the regular school hours, Monday through Friday, with consideration given whenever possible to the hours of working parents.

At the conference, the principal will read the policy, rule or regulation the student is charged with having violated and will briefly outline the student's conduct. The principal will also explain the reason for rejecting other disciplinary options. The parent should be asked by the principal if he/she understands the rule and the charges against the student.

At the conclusion of the conference the principal shall state whether he/she will terminate or modify the suspension. In all cases the parent will be advised of the right to have the suspension reviewed by the superintendent, board of education, a hearing officer appointed by the board, or the suspension committee as provided by this policy. If the parent is in agreement with the principal's decision, he/she will be requested to sign a waiver of review.

Individualized Plans

Suspensions in excess of five (5) days shall include an Individualized Plan ("Plan") that shall describe either a home-based school work assignment setting or other appropriate work assignment setting. The Plan shall be prepared by the principal with the assistance of other school employees.

The Plan shall provide for the core units in which the student is enrolled. Core units shall consist of the minimum English, Mathematics, Science, Social Studies and Art units required by the Oklahoma State Department of Education for grade completion in grades kindergarten through eight and for high school graduation in grades nine through twelve.

A copy of the Plan shall be provided to the student and parent. The parent shall be responsible for providing a supervised, structured environment monitoring the student's educational progress until the student is readmitted into school. The Plan shall set out the procedure for education and shall also address academic credit for work satisfactorily completed.

Records

The principal will keep written records of each suspension conference. The records will contain the date of the conference, names of participants, time and duration of the conference, and the basis for rejecting alternative disciplinary options. The principal shall also maintain records related to the Plan and the student and/or parent's compliance with the Plan.

Suspension Terms

All suspensions will have a definite start and end date. The term of a suspension may be reduced if a student performs a specified remedial act if those conditions are agreed to at the time of the suspension. Suspension lengths will be as consistent as possible between students considering the nature of the conduct and the previous disciplinary history of the student.

Long-term suspensions are those suspensions in excess of ten (10) school days. Suspensions will not extend beyond the current school semester and succeeding semester, except in the case of possession of a firearm, in which case a suspension shall be for a period of not less than one (1) calendar year. Suspensions involving firearms are governed by the school district's Gun-Free Schools Student Suspension policy.

Short-term suspensions are those suspensions of ten (10) or fewer school days.

Long-Term Suspension Appeals

A parent/student may appeal the suspension to the superintendent and board of education or a hearing officer appointed by the board. The principal shall inform the parent/student of

the right to appeal the suspension and the method for appealing. At the parent/student's option the appeal may be directly to the board or the board's appointed hearing officer.

A written appeal must be received by the superintendent within five (5) calendar days after the parent/student receives the principal's decision. If the superintendent does not receive a written appeal within five (5) calendar days of the principal's decision, the principal's suspension decision is final.

Appeals to the Superintendent or Designee ("Superintendent")

If the superintendent receives a timely written appeal request, the superintendent will hold a conference with the parent or guardian as soon as possible. The conference will be held during regular school hours, Monday through Friday, with consideration given to the hours of working parents whenever possible.

At the conference, the superintendent will read the policy, rule or regulation the student is charged with having violated and will briefly outline the student's conduct. The parent will be asked if he/she understands the rule and the charges against the student. The student/parent will be given an opportunity to provide his/her version of events.

At the conclusion of the conference the superintendent will state whether he/she shall terminate or modify the suspension. In all cases the parent shall be advised of the right to have the suspension reviewed by the board of education or a board-appointed hearing officer. If the parent is in agreement with the superintendent's decision, he/she shall be requested to sign a waiver of review by the board.

Appeals to the Board of Education or Designated Hearing Officer

An appeal must be presented by letter to the superintendent within five (5) calendar days after the parent/student receives the superintendent's decision. If the superintendent does not receive a written appeal within five (5) calendar days of the superintendent's decision, the superintendent's suspension decision is final.

If the board receives a timely written appeal request, the board or an appointed hearing officer will hear the appeal as soon as possible. This decision is final and nonappealable.

The parent/student will be notified in writing of the date, time and place of the hearing and will have the right to choose an "open" or "closed" hearing. Reasonable efforts will be made to accommodate the work schedule of parents. The following procedures will be followed:

1. The board president or the appointed hearing officer should:
 - a. Announce that the next agenda item is a suspension review hearing.
 - b. Ask whether the parent/student wants the hearing to be open to the public or in executive session. The offer of an open hearing and the response is to be made a part of the minutes of the meeting. If the parent/student requests a closed hearing, a

motion to go into executive session per their request should be made and voted on.

2. The board president or hearing officer should advise the parent/student:
 - a. That they are entitled to legal counsel, if they desire it.
 - b. That the administration will present its witnesses first and that after each witness the parent or their legal counsel will be given an opportunity to cross-examine.
 - c. That the parent/student will be given an opportunity to call any relevant witnesses and present any relevant evidence, subject to cross-examination by the administration's legal counsel.
 - d. That the board or its hearing officer will consider the evidence and documents and reach a decision that will be recorded by vote in open session.
 - e. That the parent/student may ask any questions about the procedure.
3. Administration may call witnesses and present documents subject to cross-examination.
4. Parent/student may call any witnesses and present documents subject to cross-examination.
5. After each witness is presented board members or the hearing officer may ask the witness questions.
6. Parent/student's closing statement.
7. Administration's closing statement.
8. Deliberate in private. (If the hearing is not in executive session, the board or its hearing officer may deliberate in executive session only with permission of the parent/student.)
9. Return to open session and vote. After adopting a motion making certain findings of fact the board must make a motion to: (1) affirm the suspension; (2) modify the suspension (increase or decrease severity of the suspension); or (3) revoke the suspension. If the hearing is before a hearing officer, no motions will be required as a part of the hearing process; otherwise, the hearing officer will have the same obligations as the board when rendering a decision.

Attendance at School Pending Appeal Hearing

Pending an appeal of the student suspension, the student will have the right to attend school under such "in-house" restrictions as the principal deems proper, except that at the discretion of the principal, the student may be prohibited from attending school pending any appeal hearing if in the judgment of the principal the student's continued presence in the building will constitute an immediate danger to the health or safety of students, school employees, school property, or would be a substantial disruption of the educational process.

Short-Term Suspension Appeals

A parent or student may appeal the suspension decision to a suspension review committee established by the superintendent. The principal shall inform the parent/student of the right to appeal the suspension and the method for appealing.

An appeal must be presented by letter to the principal within five (5) calendar days after the parent/student receives the principal's decision. If the principal does not receive a written appeal within five (5) calendar days of the decision, the principal's suspension decision is final.

Upon receipt of the request, the principal shall confirm that the student's suspension falls within the category of suspensions to which an appeal to the committee is authorized. If the principal determines that the suspension is a long-term suspension, or the original short-term suspension is extended beyond ten (10) school days prior to the hearing, the procedures applicable to long-term suspensions must be followed and the student must be given the opportunity to appeal any adverse decision to the board of education.

Hearing the Appeal

1. The superintendent shall appoint a review committee consisting of not less than three certified administrators and/or teachers, and shall designate a chairperson for the committee. No administrator or teacher is eligible to serve on the committee who was a witness to the student's conduct, nor is any teacher eligible to serve who has the student in his/her class for the current school term.
2. The superintendent shall schedule the committee hearing as soon as possible during regular school hours, Monday through Friday. Reasonable consideration shall be given to accommodate the work schedules of the parent whenever possible. The parent/student will be notified in writing of the date, time and place of the hearing. The principal shall attend the hearing. Either party choosing to have legal counsel at the hearing shall give the other party twenty-four (24) hours advance notice. The failure to give such notice will preclude the party's right to have counsel attend the hearing.
3. The committee will conduct a full investigation of the student's suspension in an informal manner. The principal will briefly outline the student's conduct, read the policy, rule or regulation that the student's conduct violated, and present any evidence and witnesses that support the suspension decision. The parent/student will be asked by the committee if they understand the rule and charges against the student. The parent/student will then briefly explain

the student's conduct, and present any evidence and witnesses that support the student's position.

4. At the conclusion of the presentation of the evidence, the committee shall retire to render a decision by a majority vote as to the guilt or innocence of the student. The committee shall also determine the reasonableness of the term of the suspension. The committee's decision shall be confirmed in writing and a copy will be mailed to the parent, the principal and the superintendent.
5. The decision of the committee shall be final and nonappealable.

Student Privileges While Under Suspension

Participation in school extracurricular activities is a privilege and not a right. Accordingly, students who are suspended are immediately ineligible to participate in extracurricular activities, notwithstanding the filing of an appeal. "Extracurricular activities" include, but are not limited to, all school sponsored teams, clubs, organizations, ceremonies, student government, band, athletics and all other school sponsored activities and organizations.

GUN-FREE SCHOOLS STUDENT SUSPENSION

Any student who is determined to have:

- brought a weapon to a school under the jurisdiction of the district; or
- possessed a weapon within two thousand (2,000) feet of public school property; or
- possessed a weapon at a school event

shall be suspended out of school for a period of not less than one calendar year. This policy does not apply to students who are members of the JROTC and who possess or bring an inoperable weapon to school for participation in a school program, provided the student obtained prior permission from the principal, the weapon remains inoperable while at school and the weapon is used consistent with the permission granted.

Any out-of-school suspension imposed under this policy may be modified for any student on a case-by-case basis by the chief administrative officer of the district.

For the purposes of this policy, the following definitions shall control:

- The term "weapon" means a firearm as such term is defined in Section 921 of Title 18 of the United States Code.
- The term "chief administrative officer" means the superintendent or the board of education.
- The term "determined to have brought a weapon to a school under the jurisdiction of the district" means any student being in possession or control of a weapon on property owned, leased or rented by the district, including, but not limited to, school buildings, parking lots and motor vehicles and any student who is in possession or control of a weapon at any district sponsored function regardless of whether such function is conducted on district property.

Enforcement of this policy shall be consistent with state and federal laws dealing with discipline of students with disabilities.

Students who violate this policy will be referred to the appropriate criminal justice or juvenile delinquency system. Any firearm seized from a student by any school employee shall immediately be delivered to a law enforcement authority for disposition pursuant to applicable law.

Any out-of-school suspension initiated pursuant to this policy shall be subject to the procedural safeguards set forth in the district's policy for the out-of-school suspension of students.

Consistent with Oklahoma law, for an out-of-school suspension under this policy, no education plan shall be implemented during the term of the suspension. This policy does not apply to student suspensions for non-weapon violations.

STUDENT BULLYING

Statement of Legislative Mandate and Purpose

This policy is a result of the legislative mandate and public policy embodied in the *School Safety and Bullying Prevention Act*, 70 OKLA. STAT. § 24-100.2 et seq. (“Act”). The district intends to comply with the mandates of the Act and expects students to refrain from bullying. Bullying is expressly forbidden and students who bully are subject to disciplinary consequences as outlined in the district’s policy on student behavior. Bullies may also be provided with assistance to end their unacceptable behavior, and targets of bullies may be provided with assistance to overcome the negative effects of bullying.

Definition of Terms

A. Statutory definition of terms:

“Bully” means any pattern of harassment, intimidation, threatening behavior, physical acts, verbal or electronic communication directed toward a student or group of students that results in or is reasonably perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school’s educational mission or the education of any student.

“Threatening behavior” means any pattern of behavior or isolated action, whether or not it is directed at another person, that a reasonable person would believe indicates potential for future harm to students, school personnel, or school property.

“Electronic communication” means the communication of any written, verbal, pictorial information or video content by means of an electronic device, including, but not limited to, a telephone, a mobile or cellular telephone or other wireless telecommunication device, or a computer.

Note: Bullying by electronic communication is prohibited whether or not such communication originated at school, or with school equipment, if the communication is specifically directed at students or school personnel and concerns bullying at school.

“At school” means on school grounds, in school vehicles, at school-sponsored activities, or at school-sanctioned events.

B. The “Reasonable Person” Standard

In determining what a “reasonable person” should recognize as bullying, staff will consider the point of view of the intended target, including any characteristics unique to the intended target. Staff may also consider the discipline history and physical characteristics of the alleged bully.

C. Types of Bullying

“Physical Bullying” includes harm or threatened harm to another’s body or property, including but not limited to threats, tripping, hitting, pushing, pinching, pulling hair, kicking, biting, starting fights, daring others to fight, stealing or destroying property, extortion, assaults with a weapon, other violent acts, and homicide.

“Emotional Bullying” includes the intentional infliction of harm to another’s self-esteem, including but not limited to insulting or profane remarks or gestures, or harassing and frightening statements.

“Social Bullying” includes harm to another’s group acceptance, including but not limited to gossiping; spreading negative rumors to cause a targeted person to be socially excluded, ridiculed, or otherwise lose status; acts designed to publicly embarrass a targeted person, damage the target’s current relationships, or deprive the target of self-confidence or the respect of peers.

“Sexual Bullying” includes harm of a sexual nature, including but not limited to making unwelcome sexual comments or gestures to or about the targeted person; creating or distributing vulgar, profane or lewd words or images about the target; committing a sexual act at school, including touching private parts of the target’s body; engaging in off-campus dating violence that adversely affects the target’s education opportunities; making threatening sexual statements directed at or about the target; or gossiping about the target’s sexuality or sex life. Such conduct may also constitute sexual harassment which is prohibited by the district.

Understanding and Preventing Bullying

A. Student and Staff Education and Training

A full copy of this policy will be posted on the district’s website and included in all district handbooks. Parents, guardians, community members, and volunteers will be notified of the availability of this policy through the district’s annual written notice of the availability of the district’s anti-bullying policy. Written notice of the policy will also be posted at various places in all district school sites.

Students and staff will be periodically reminded throughout the year of the availability of this policy, the district’s commitment to preventing bullying, and help available for those affected by bullying. Anti-bullying programs will be incorporated into the district’s other violence prevention efforts.

All staff will receive annual training regarding preventing, identifying, reporting, and managing bullying. The district’s bullying coordinator and individuals designated as school site investigators will receive additional training regarding appropriate consequences and remedial action for bullies, helping targets of bullies, and the district’s strategy for counseling and referral for those affected by bullying.

Students will receive annual education regarding behavioral expectations, understanding bullying and its negative effects, disciplinary consequences for infractions, reporting methods, and consequences for those who knowingly make false reports. Parents and guardians may participate in a parent education component.

B. Safe School Committees

Each Safe School Committee has the responsibility of studying and making recommendations regarding unsafe conditions, strategies for students to avoid harm at school, student victimization, crime prevention, school violence, and other issues which interfere with and adversely affect school safety.

With respect to student bullying, each Committee shall assist the board in promoting a positive school climate. The Committee will study the district's policy and currently accepted bullying prevention programs (available on the state department website) to make recommendations regarding bullying. These recommendations must be submitted to the principal and cover: (i) needed staff development, including how to recognize and avoid bullying; (ii) increasing student and community involvement in addressing bullying, (iii) improving individual student-staff communication, (iv) implementing problem solving teams which include counselors and/or school psychologists, and (v) utilizing behavioral health resources.

Student Reporting

Students are encouraged to inform school personnel if they are the target of or a witness to bullying. To make a report, students should notify a teacher, counselor, or principal. The employee will give the student an official report form, and will help the student complete the form, if needed.

Students may make an anonymous report of bullying, and such report will be investigated as thoroughly as possible. However, it is often difficult to fully investigate claims which are made anonymously and disciplinary action cannot be taken against a bully solely on the basis of an anonymous report.

Staff Reporting

Staff members will encourage students to report bullying. All employees are required to report acts of bullying to the school principal on an official report form. Any staff member who witnesses, hears about, or suspects bullying is required to submit a report.

Bullying Investigators

Each school site will have a designated individual and an alternate to investigate bullying reports. These individuals will be identified in the site's student and staff handbooks, on the district's website, and in the bullying prevention education provided annually to students and staff. The district's anti-bullying program is coordinated at the district level by its bullying coordinator, the elementary school counselor (Charla Jackson).

Investigating Bullying Reports

For any alleged incidents of bullying reported to school officials, the designated school official will investigate the alleged incident(s) and determine (i) whether bullying occurred, (ii) the severity of the incident(s), and (iii) the potential for future violence.

In conducting an investigation, the designated official shall interview relevant students and

staff and review any documentation of the alleged incident(s). School officials may also work with outside professionals, such as local law enforcement, as deemed appropriate by the investigating official. In the event the investigator believes a criminal act may have been committed or there is a likelihood of violence, the investigator will immediately call local law enforcement and the superintendent.

At the conclusion of the investigation, the designated employee will document the steps taken to review the matter, the conclusions reached and any additional action taken, if applicable. Further, the investigator will notify the district's bullying coordinator that an investigation has occurred and the results of the investigation. In the event the investigation reveals that bullying occurred, the district's bullying coordinator will refer the student who committed the act of bullying to a delinquency prevention and diversion program through the Office of Juvenile Affairs.

Upon completion of an investigation, the school may recommend that available community mental health care or substance abuse options be provided to a student, if appropriate. The school may provide a student with information about the types of support services available to the student bully, target, and any other students affected by the prohibited behavior. These resources will be provided to any individual who requests such assistance or will be provided if a school official believes the resource might be of assistance to the student/family. The district is not responsible for paying for these services. No school employee is expected to evaluate the appropriateness or the quality of the resource provided, nor is any employee required to provide an exhaustive list of resources available. All school employees will act in good faith.

The school may request the disclosure of information concerning students who have received substance abuse or mental health care (pursuant to the previous paragraph) if that information indicates an explicit threat to the safety of students or school personnel, provided the disclosure of the information does not violate the requirements and provisions of the Family Educational Rights and Privacy Act of 1974, the Health Insurance Portability and Accountability Act of 1996, OKLA. STAT. tit. 12 § 1376, OKLA. STAT. tit. 59 §1376 of the Oklahoma Statutes, or any other state or federal laws regarding the disclosure of confidential information. The school may request the disclosure of information when it is believed that the student may have posed a danger to him/herself and having such information will allow school officials to determine if it is safe for the student to return to the regular classroom or if alternative education arrangements are needed.

Parental Notification

The assigned investigator will notify the parents of a target within one (1) school day that a bullying report has been received. Within one (1) school day of the conclusion of the investigation, the investigator will provide the parents of a target with the results of the investigation and any community resources deemed appropriate to the situation.

If the report of bullying is substantiated, within one (1) school day of the conclusion of the investigation, the investigator will contact the parents of the bully to discuss disciplinary action and any community resources deemed appropriate to the situation.

The timelines in this parental notification section may be reasonably extended if individual circumstances warrant such an extension.

Parental Responsibilities

All parents/guardians will be informed in writing of the district's program to stop bullying and will be given a copy of this policy upon request. An administrative response to a reported act of bullying may involve certain actions to be taken by parents. Parents will be informed of the program and the means for students to report bullying acts toward them or other students. They will also be told that to help prevent bullying at school they should encourage their children to:

- Report bullying when it occurs;
- Take advantage of opportunities to talk to their children about bullying;
- Inform the school immediately if they think their child is being bullied or is bullying other students;
- Watch for symptoms that their child may be a target of bullying and report those symptoms; and
- Cooperate fully with school personnel in identifying and resolving incidents.

Student Transfers

Students who are victims of bullying, and who report the incident(s) to school administrators, may choose to transfer to another school district. Any application for transfer must be made in accordance with the receiving school district's transfer policy.

Monitoring and Compliance

In order to assist the State Department of Education with compliance efforts pursuant to the *School Safety and Bullying Prevention Act*, 70 OKLA. STAT. § 24-100.2 et seq., the district will identify a Bullying Coordinator who will serve as the district contact responsible for providing information to the State Board of Education. The Bullying Coordinator shall maintain updated contact information on file with the State Department of Education and the school district will notify the State Department of Education within fifteen (15) days of the appointment of a new Bullying Coordinator.

A copy of this policy will be submitted to the State Department of Education by December 10th of each school year as part of the school district's Annual Performance Report.

HAZING

Hazing constitutes unethical and unacceptable conduct that will not be tolerated in Warner Public Schools. To that end the district adopts the following policy prohibiting hazing.

"Hazing" means any activity which recklessly or intentionally endangers the physical or mental health or safety of a student, required as a condition of membership in an organization, regardless of willing participation, including but not limited to physical brutality such as whipping, beating, branding, forced calisthenics, exposure to the elements, forced consumption of food, alcohol, drugs, or other substances, and activities which would induce extreme mental stress such as prolonged sleep deprivation, prolonged isolation, and conduct which could cause extreme embarrassment or humiliation.

Endangering the physical health shall include, but not be limited to, any brutality of a physical nature, such as whipping, beating, branding, forced calisthenics, exposure to the elements, forced consumption of any food, alcoholic beverage, low-point beer, drug, controlled dangerous substance, or other substance, or any other forced physical activity which could adversely affect the physical health or safety of the individual.

Endangering the mental health shall include, but not be limited to, any activity except those authorized by law, which would subject the individual to extreme mental stress, such as prolonged sleep deprivation, forced prolonged exclusion from social contact, forced conduct which could adversely affect the mental health or dignity of the individual.

No organization having student members which is sponsored by the district or which is permitted to hold meetings or other events on district property (a "Student Organization") and no student member of a Student Organization shall engage or participate in or directly or indirectly condition membership on participation in or submission to a hazing activity.

Students violating these prohibitions shall not be permitted to participate in any extra-curricular activity sponsored by the district for a minimum of nine (9) school months, shall be subject to disciplinary measures which may include suspension, and shall, when appropriate, be referred to local law enforcement authorities for prosecution.

Student Organizations which violate these prohibitions shall forfeit all rights, privileges, and recognition from the district for a minimum of one year, and shall be referred to local law enforcement authorities for prosecution.

Hazing will be dealt with as outlined in the Code of Student Conduct. School employees who are linked to hazing shall be subject to discipline - including dismissal or non-renewal.

STUDENT POSSESSION OF DANGEROUS WEAPONS

In order to provide a safe environment for the students and staff of the district, the board of education adopts this policy prohibiting the possession and/or use of dangerous weapons, replicas or facsimiles of dangerous weapons and items or instrumentalities which are used to threaten harm or are used to harm any person.

Dangerous weapons, including but not limited to firearms, are a threat to the safety of the students and staff of the district. In addition, possession of dangerous weapons, or replicas or facsimiles of dangerous weapons, disrupts the educational process and interferes with the normal operation of the district.

For the foregoing reasons and except as specifically provided in paragraph 10 below, possession by any student of a dangerous weapon, as that term is defined in this policy, or a replica or facsimile of a dangerous weapon, while on school property, at a school-sponsored activity, or on a school bus or vehicle, is prohibited. Further, use of any item or instrumentality by a student to threaten harm to any person or which is used to harm any person, while on school property, at a school-sponsored activity, or on a school bus or vehicle, is prohibited.

For purposes of this policy, "possession of a dangerous weapon" includes, **BUT IS NOT LIMITED TO**, any person having a dangerous weapon: (1) on his or her person; (2) in his or her locker; (3) in his or her vehicle; (4) held by another person for his or her benefit; or (5) at any place on school property, a school bus or vehicle, or at a school activity.

A dangerous weapon includes, **BUT IS NOT LIMITED TO**, a pistol, revolver, rifle, shotgun, air gun or spring gun, B-B gun, stun gun, hand grenades, fireworks, slingshot, bludgeon, blackjack, brass knuckles or artificial knuckles of any kind, nun-chucks, dagger, bowie knife, dirk knife, butterfly knife, any knife, regardless of the length or sharpness of the blade, any knife the blade of which can be opened by a flick of a button or pressure on the handle, any pocketknife, regardless of the length or sharpness of the blade, any pen knife, "credit card" knife, razor, dart, ice pick, explosive smoke bomb, incendiary device, sword cane, hand chains, firearm shells or bullets, garrottes, choking devices, mace, pepper spray, and any item whose principal purpose is for use as a weapon, whether offensive or defensive, and any replica or facsimiles of any of the foregoing items, or any item or instrumentality which is used to threaten harm or is used to harm any person or any chemical, material or substance which can cause an irritation to or reacts with human tissue, or any chemical, material or substance used, given, applied to or administered to another person without that person's consent. The foregoing list of "dangerous weapons" is descriptive and by way of example only and is not to be considered an exclusive or limiting list of dangerous weapons. It will not be a defense to any disciplinary action under this policy that the student possessing the dangerous weapon did not know that it is dangerous weapon, but such claim of a lack of knowledge may be considered in mitigation of any disciplinary penalty.

Any student in possession of a dangerous weapon, or replica or facsimile of a dangerous

weapon, in violation of this policy or who uses any item or instrumentality to threaten harm to any person or is used to harm any person may be placed under emergency suspension from school, pending an investigation of the incident by the appropriate school or legal authorities. Students who violate this policy may be suspended from school, barred from school property and all school activities for any period of time up to the maximum period authorized by law. Additionally, appropriate school staff members may seek to file criminal charges against the student.

If a teacher or other school employee has a reasonable suspicion to believe that a student is in possession of a dangerous weapon, or a replica or facsimile of a dangerous weapon, the teacher or employee shall immediately investigate the matter and shall confiscate any such weapon found if this can be accomplished without placing any students or staff in jeopardy, and shall immediately notify the superintendent or the superintendent's designee. If the teacher or employee does not believe that the weapon can be confiscated safely, the teacher or employee shall immediately notify the superintendent or the superintendent's designee of the situation.

If the superintendent or his/her designee learns that a student is believed to be in possession of a dangerous weapon or replica or facsimile thereof, the superintendent or designee shall observe the following procedure:

1. Immediately investigate the matter and contact the police or campus security, if appropriate.
2. If not already confiscated by an employee of the district and if it can be accomplished without risk of injury, the superintendent or designee should take possession of the dangerous weapon or replica or facsimile.
3. Notify the superintendent or designee.
4. Notify the student's parents.
5. Cooperate fully with the police.
6. Transfer confiscated weapon to the police department, if feasible.

A student who has been suspended from another school district because of the possession of a dangerous weapon, or replica or facsimile of a dangerous weapon, shall not be accepted as a transfer student into the district.

An exception to this policy may be granted for students participating in an authorized curricular or extracurricular activity or team involving the use or demonstration of a dangerous weapon, or replica or facsimile of a dangerous weapon. For this exception, prior written approval by the superintendent is required. Students who participate in JROTC may also be granted an exception to bring an inoperable weapon onto campus for the limited purpose of participating in a school program. The principal must approve this exception in advance, the weapon must remain inoperable at all times while on campus, and the weapon must not be used in a manner which is inconsistent with the permission granted.

A student's inadvertent or unintentional possession of a dangerous weapon or replica or facsimile thereof on school property, a school bus or vehicle, or at a school activity is no defense or excuse to compliance to this policy, but may be considered in determining the

length or severity of any punishment for violation of this policy.

Notwithstanding any of the foregoing provisions, rights of due process for all students and rights of disabled students must be observed in accordance with applicable law and school board policies.

STUDENTS, DRUGS AND ALCOHOL

Illegal and Illicit Drugs and Alcohol

1. Use of illicit drugs and unlawful possession and use of alcohol is wrong and harmful.
2. Students are prohibited from using, being under the influence of, possessing, furnishing, distributing, selling, conspiring to sell or possess or being in the chain of sale or distribution of tobacco, alcoholic beverages, non-intoxicating alcoholic beverages (as defined by Oklahoma law, i.e., 3.2 beer), illegal or illicit drugs, or other mood-altering substances at school, while on school vehicles, or at any school-sponsored event.
3. "Illicit drugs" includes steroids and prescription and over-the-counter medications being used for an abusive purpose, i.e., when they are not used in compliance with the prescription or directions for use and are not being used to treat a current health condition of the student.
4. "Mood-altering substances" include, but are not limited to, paint, glue, aerosol sprays, salts, incense, and other substances which may be used as an intoxicating substance.
5. Violation of this rule will result in imposition of disciplinary measures, which may include suspension for the remainder of the current semester and the following semester.
6. Student violation of this rule which also constitutes illegal conduct will be reported to law enforcement authorities.

Necessary Medications

1. Students may not retain possession of and self-administer any medication at school for any reason.
2. Students who have a legitimate health need for over-the-counter or prescription medication at school shall deliver such medications to the school nurse or principal with a parental authorization, in compliance with Oklahoma law and school policy and procedures regarding administering medicine to students.
3. Violations of this rule will be reported to the student's parents by the principal, and may result in discipline which can include suspension.

Distribution of Information

1. Information for students and their parents about drug and alcohol counseling and rehabilitation and reentry programs in this geographic area is available from the principal or counselor at each student's school.
2. Copies of these Rules shall be provided to all students and their parents at the beginning of each school year.

OBSERVATION OF MOMENT OF SILENCE

The Oklahoma Legislature has directed that the board of education of each school district shall ensure that the public schools within the district shall observe approximately one minute of silence each day. This policy is adopted to comply with that directive.

The principal of each school building within the school district is hereby directed to designate approximately one minute of instructional time each school day for the observation of a moment of silence. At the beginning of each semester, the principal or his or her designee will give teachers direction as to how the moment of silence is to be observed. The moment of silence shall be for the purpose of allowing each student, in the exercise of his or her individual choice, to reflect, meditate, pray, or engage in any other silent activity that does not interfere with, distract, or impede other students in the exercise of their individual choices. Teachers shall neither encourage students to use nor discourage students from using the moment of silence for any particular purpose, such as reflection, meditation, prayer, or other silent activity. All teachers shall be made aware that it is the student's decision as to how to utilize the moment of silence, provided that the student's choice does not interfere with, distract, or impede other students in the exercise of their individual choices.

STUDENT SEARCH AND SEIZURE

The superintendent or his/her designee is authorized to detain and search any student and any property in the student's possession while on school premises, at school activities, or in transit under authority of the school, for any item possession of which by the student is illegal or prohibited by school rules, or for property believed to have been stolen from another student, an employee, or the school. The search shall be conducted according to the following guidelines:

Reasonableness

1. The decision to search must be based upon a reasonable suspicion that
 - A. A violation of the law or school rules has occurred or is occurring;
 - B. The student to be searched has committed the violation; and
 - C. Particular evidence of the violation will be discovered in the search.
2. In deciding whether a suspicion is reasonable, all the circumstances surrounding the case should be considered, including:
 - A. The student's age, history, and record in school;
 - B. The prevalence and seriousness of the suspected violation;
 - C. The school officials' prior experience in detecting the problem or recognizing suspicious behavior;
 - D. The need to make a search without delay and further investigation;
 - E. The specificity and source of the information used as justification for the search; and
 - F. The particular teacher or school official's experience with the student.

Scope

1. The scope or extent of the search shall be reasonably related to the kind of objects being searched for, and not excessively intrusive in light of the student's age and sex and the nature of the suspected violation.
2. A search commenced to discover a particular kind of item may be expanded or continued for additional items if circumstances warrant.

Discovered Items

1. Illegal items or other possessions or substances reasonably determined to be a threat to the safety or security of others may be seized by school authorities. These items will immediately be turned over to law enforcement officials for disposition as they see fit.
2. Items which are used to disrupt or interfere with the educational process may be temporarily removed from student possession.

Refusal to Submit to Search

A student who refuses to peaceably submit to a search based on reasonable suspicion or who refuses to turn over items discovered as a result of a search may be suspended for such refusals.

Reports

The person conducting the search shall prepare a report to be maintained by the superintendent including the date, time, place, names of witnesses, purpose, basis, and result of the search.

LOCKER SEARCH AND SEIZURE

In order to maintain discipline and to ensure the proper functioning of the educational process, school administrators must have access at all times to all school property, including lockers, desks, etc. assigned to students. The administration will maintain a confidential file of all lockers and their combinations and will retain master keys to all lockers, cabinets, etc., as applicable. Thus, although students have privacy rights in their locker contents as against other students, they do not have privacy rights in their locker contents as against school administrators. No school property will be used to store objects or materials that violate school regulations or state and local ordinances. The school maintains the right to ensure that lockers and desks are properly cleaned and that they do not contain items which should not be kept on school property. Lockers will be opened periodically for cleaning purposes and to locate overdue library and class materials. In addition, school administrators may open and examine student lockers, desks and all school property assigned to students for general and specific inspections at any time.

"Sniffer" dogs may properly be used to discover prohibited items concealed in school property assigned to students.

Illegal items or other possessions or substances reasonably determined to be a threat to the safety or security of others will be seized by school authorities. These items will immediately be turned over to law enforcement officials for disposition as they see fit.

Items which are used to disrupt or interfere with the educational process will be temporarily removed from student possession.

ADMINISTRATION OF MEDICINE TO STUDENTS

Purpose

The purpose of this policy is to identify when district personnel are authorized to administer medication to students, when students are authorized to self-medicate and how district personnel will maintain, administer, monitor and dispose of student medication.

Definitions

For purposes of this policy, these terms have the following definitions:

"Medicine" or "medications" includes prescription medications and over-the-counter medicines such as but not limited to aspirin, cough syrup, medicated ointments and any other item used to treat an illness, disease or malady.

"Parent" means a parent, a court appointed guardian or a person having legal custody.

Policy

Under Oklahoma law, a school nurse, an administrator or a designated school employee may administer prescription and nonprescription medications to students. Only designated employees who have successfully completed specific training in the administration of nonprescription and prescription medications may administer medication to students with legitimate health needs.

Except as provided in this policy and in the district's Student Diabetes Care and Management policy, students may not retain possession of or self-administer any medicine. Violation of this rule will be reported to the student's parent and may result in discipline, including out-of-school suspension.

As further set out below, the district retains the discretion to reject requests for the administration of medication and to discontinue the administration of medication.

The parent must deliver the student's medicine to the school nurse or school administrator in its original container with the parent's written authorization for administration of the medicine. The parent's authorization must identify the student, the medicine and include or refer to the label for instructions on administration of the medicine. The school nurse, an administrator or a designated employee will administer the medicine to the student pursuant to the parent's instructions and the directions for use on the label or in the physician's prescription. The parent must complete a new authorization form annually and for each change of medication. The district will maintain the authorization form as a part of the student's health record. Authorization forms will be available in the principal's office. A parent who chooses to do so may come to the school and personally dispense medication to the student.

The administration of each school will keep a record of the students to whom medicine is administered, the date of administration, the person who administered the medicine and the name or type of medicine administered.

Medications will be stored in a separate locked drawer or cabinet that is readily accessible only to the persons who will administer the medication. Medications requiring refrigeration will be refrigerated in a secure area.

Any person administering medicine to a student will participate in training by October 1 of each year conducted by a school nurse or other health care professional. The training will include:

- Review of state statutes and school rules and regulations (including this policy) regarding administration of medication by school personnel;
- Procedures for administration, documentation, handling and storage of medication; and
- Medication needs of specific students, desired effects, potential side effects, adverse reactions and other observations.

Only those persons who successfully complete the training are authorized to administer medication. Each school site will maintain a current list of those authorized to administer medication at that site.

Students who are able to self administer specific medications, such as inhaled asthma medication or anaphylaxis medication, or use specialized equipment, such as an inhaler or Epinephrine injector, may do so provided such medication and specialized equipment are transported and maintained under the students' control in compliance with the following rules:

- A licensed physician or dentist must provide a written order that the student has a particular medical condition (asthma, anaphylaxis, etc.), is capable of and has been instructed in the proper method of self-administration of medication. It is the parent's responsibility to contact the physician and have the physician complete and return the required order.
- The parent must provide a written authorization for self administration of medication.
- Parents who elect self medication understand and agree that the district, its agents and employees shall incur no liability for any adverse reaction or injury the student suffers as a result of self-administration of medication and/or use of specialized equipment.
- The written authorization will terminate at the end of the school year and must be renewed annually.
- If the parent and physician authorize self medication, the district is not responsible for safeguarding the students' medications or specialized equipment.

- Students who self medicate are prohibited from sharing or playing with their medication or special equipment. If a student engages in these activities the parent will be contacted and a conference will be scheduled with the parent, student, nurse and other appropriate persons.
- Students will not be allowed to self administer:
 - Narcotics;
 - Prescription pain killers;
 - Medication used to treat ADD/ADHD or other psychological or behavior disorders; and
 - Other medication hereafter designated in writing by the district.
- Except as otherwise provided by an individual student's school health plan, students may self administer non-diabetes and non-anaphylaxis-related injectables only in the school office in the presence of authorized school personnel. Diabetes-related injectables will be administered in accordance with the district's Management of Students with Diabetes policy.
- Students who self medicate are encouraged to wear Medic Alert bracelets or necklaces.
- The parent will provide an emergency supply of a student's inhaled asthma medication or anaphylaxis medication to be administered by school personnel, as required by state law.

Nonprescription Medication

School staff will only administer nonprescription medication with the parent's written authorization and according to label directions or written instructions from the student's physician. The medication must be in the original container that indicates:

- Student name (affixed to the container);
- Ingredients;
- Expiration date;
- Dosage and frequency;
- Administration route, i.e., oral, drops, etc.; and
- Other directions as appropriate.

School staff will only administer aspirin (acetylsalicylic acid) and products containing salicylic acid with written instructions from the student's physician. The parent must provide and maintain a supply of nonprescription medication for the student.

Prescription Medication

School staff will only administer prescription medication with written authorization and instructions. Prescription medication must be in the original container that indicates:

- Student name;
- Name and strength of medication and expiration date;
- Dosage and directions for administration;
- Name of the licensed physician or dentist;
- Date, name, address and phone number of the pharmacy.

The parent must provide and maintain the supply of prescription medication for the student.

The parent must reclaim any remaining medication by the last official day of school closing or within seven days after the prescribing physician discontinues the medication. The school nurse or designated employee will destroy in a nonrecoverable fashion in the presence of a witness any medication not timely reclaimed. The person who destroys the medication will record the following information:

- Date of destruction;
- Time of destruction;
- Name and quantity of medication destroyed; and
- Manner of destruction of medication

Any and all controlled substances will be destroyed according to state law.

The school nurse or designated employee will advise the principal or designee if discontinuance of medication to a student is appropriate and assist in informing the parent. Legitimate reasons for discontinuing administration of medication include, but are not limited to the following:

- A legitimate lack of space or facility to adequately store specific medication;
- Lack of cooperation by the student, parent and/or prescribing doctor and the district;
- An unexpected and/or adverse medical reaction to the medication at school, i.e., mood change, allergic reaction, etc., considered to be harmful to the health and well being of the student;
- Any apparent change in the medication's appearance, odor, or other characteristics that raise reasonable doubts about the quality of the medication; and
- The medication expiration date has passed.

GIFTED STUDENT PROGRAM

The board of education recognizes that educational programs are necessary for gifted children as defined by state law.

Therefore, it is the policy of the board of education to cooperate fully with the State Department of Education in identifying gifted and talented children and in developing appropriate educational programs.

Children in this district will be considered for placement in the program in accordance with scores on standardized achievement and intelligence tests, records, and recommendations of teachers and parents.

Children identified as gifted and talented will be offered gifted and talented educational programs directly through the facilities of this district.

Philosophy

Those special gifts which qualify an individual to be considered gifted and talented must be valued as irreplaceable natural resources. Recognizing this, educators and community members must ensure that these special gifts are not ignored. To this end, experiences must be provided that are consistent with the abilities and potential of the gifted and talented child so that every child feels important and is empowered to be a happy, successful, and responsible human being.

Definitions

Students identified as intellectually gifted demonstrate potential on group or individual nationally standardized intelligence tests. Students identified as talented demonstrate specific academic ability on school administered achievement tests.

Goal Statement

The long-range goal of the gifted and talented program is to identify all gifted and talented students in the school system; to provide a differentiated program which will give students the opportunity to develop a level of competency consistent with their aptitudes, goals, and interests; and to meet the needs of gifted students educationally, psychologically, and socially.

Objective

The learning community will foster skills of gifted and talented students in critical thinking, independent learning, problem finding/problem solving, creativity, specific academic abilities, and social interaction.

Identification

A gifted and talented program committee will function for each building. The committee is to be composed of the superintendent, counselor, and gifted and talented program coordinator. Committee involvement shall include program development, implementation, and evaluation.

The screening process for the gifted and talented program will be conducted according to the school system's schedule for administering group tests.

Multicriteria evaluations may include:

1. Referral: professional, peer, parent, self;
2. Measures of achievement;
3. Measures of performance; and
4. Scales, inventories, checklist.

All students scoring in the top three percentile on a nationally standardized intelligence test are considered gifted. Those students not scoring at or above the 97th percentile may be referred for an individual intelligence test. Referrals may be made by teachers, parents, guardians, peers, or students themselves.

All students scoring in the top five percentile on a nationally standardized achievement subtest (which may include total reading, total language, total math, social studies, and science) are considered talented in a specific academic area.

Placement Criteria

Students who score at the 97th percentile or above on a nationally normed test of intellectual ability shall be served in the gifted and talented program. Students who score at the 95th percentile or above on any subtest of a nationally normed test of achievement shall be served. Subtests may include total reading, total language, total math, social studies, and science. In addition, students who score in the top three percent of their local ethnic group on a nationally standardized achievement or intelligence test shall be served. The "standard error of measurement" may be used in placement decisions.

Notification

Parents will be notified in writing of their child's placement in the gifted and talented program. The district shall provide a gifted and talented program summary to the parents of identified students.

Procedural Safeguards

Specific areas of concern, including procedural safeguards are as follows:

1. Written parental consent must be obtained for individual evaluation or placement of a student in the gifted and talented program;

2. Parents may request retesting one time only. This request should be written, addressed to the superintendent;
3. Written appeals regarding placement may be directed to the gifted and talented program committee. Every effort will be made to meet with the parent within 15 days;
4. Test scores from other schools can be considered for possible placement by the gifted and talented program committee;
5. A review will be conducted annually on students' performance and progress; and
6. Parents may withdraw their child from the gifted and talented program. A written request is to be directed to the superintendent.

Program Description

A differentiated education designed to meet the gifted and talented students' needs and interests shall be provided through one or more of the following options:

1. Enrichment of content;
2. Acceleration of content;
3. Individualized instruction;
4. Honors classes;
5. Academic competition;
6. Cross-grade grouping;
7. Special interest classes;
8. Concurrent enrollment;
9. Guided research;
10. Resource room;
11. Learning centers;
12. Credit by examination;
13. Pull-out enrichment classes (for elementary gifted students only); and
14. Other.

STUDENT ATTENDANCE

The board of education believes that in order for students to realize their fullest potential from educational efforts, they should attend all classes to the extent possible. Realizing that some absences may be beyond a student's control, the board has adopted a policy requiring students to be in attendance a minimum of 90% each semester to earn credit for any course in which the student is enrolled. Exceptions to this requirement will be considered by the board on an individual, case by case, basis.

Absences

Excused absence will be granted for the following reasons:

1. Illness of the student or immediate family member;
2. Family emergencies;
3. Death of an immediate family member;
4. Medical appointments;
5. Legal matters, including service on a grand, multi-county grand, or petit jury;
6. Travel to and from and observance of holidays required by student's religious affiliation; and
7. Extenuating circumstances deemed necessary by the principal.

It is the responsibility of the parent to notify the school between 7:45 a.m. and 8:30 a.m. if the child is to be absent that day for one of the above reasons. Parents are required to contact the school and provide documentation regarding illnesses, court appearances, first attempts for driver's license, family emergencies or other reasons for student absence. The student must make up all work missed, and, if timely submitted, the district will accept it at full credit. It is the responsibility of the student, on the day of return, to make arrangements to see that the work is made up.

Any student and/or parent of a student who exceeds the 90% attendance rule and feels that he or she has extenuating circumstances that explain the absences that exceed this number may request review by the district's attendance committee. The committee will consist of a building level administrator, two teachers and a counselor. This committee may, at the discretion of the superintendent be the same as the Internal Activities Review Committee ("IARC"). Consideration will be given as to the reason for the absences (such as extended illnesses of the student or immediate family members as documented by a physician, family emergencies or death of an immediate family member) as well as to the attempts by parents to minimize the absenteeism.

School Activities

1. Students involved in school sponsored activities are limited to ten absences per school year per class period. Ten additional absences may be granted for state and national events as long as the student has earned the right to participate *and* is participating in the state or national event.
2. Students will be allowed to make up any work missed while participating but must make up the work within the period established by the assigned teacher. Reasonable time to make up work missed shall not be unreasonably withheld.
3. Absences for the following reasons will not be charged against the ten absence limit:
 - a. Activities held on campus, sanctioned by the superintendent;
 - b. Serving as a Page in the Legislature;
 - c. On campus visits by college representatives/vocational representatives;
 - d. College entrance exams;
 - e. Field trips in conjunction with a unit being taught in an academic class;
 - f. Students excused to make appearances before local civic groups;
 - g. Grade level field trips to area technology centers.
4. Students must assume responsibility for their absences. Student responsibilities include but are not limited to notifying instructors of an absence, a reasonable time prior to the absence, making arrangements with instructors to make up work, and working cooperatively with teachers and administrators when absences cannot or will not be approved even though a student's request is not otherwise unreasonable.
5. Principals will keep or cause to be kept a record of those days or class periods missed by students due to school sponsored activities. These records will be open for inspection by the student, parent or guardian of the students, sponsors, coaches and teachers with a need to know this information.
6. Absences that exceed the maximum permitted by this policy and which do not have the written permission of the IARC shall be counted as an unexcused absence in accordance with board policy.

Sponsor/Teacher or Coach Responsibilities

1. Sponsors/teachers or coaches are required to prepare a list of activities that the student may attend during the school year and provide students with the list. The same list must be furnished to the principal at the beginning of the school year but no later than fifteen days following the first day of school for students. The material prepared by sponsors/teachers or coaches shall include the criteria for eligibility for the particular activity for which the sponsor/teacher or coach is responsible, the goals of the activity and the manner in which the goals meet school and community expectations.

2. Sponsors/teachers or coaches should assist students in selecting those activities that will benefit the student and/or the school.
3. Sponsors/teachers or coaches must check activity absences regularly in order to help students plan for future absences.
4. Sponsors/teachers or coaches must be fully familiar with this policy and capable of mentoring students to avoid unnecessary and unproductive absences from classes.
5. No sponsor/teacher or coach shall misrepresent the reason for a student's absence or sanction a student's absence from a class period that is not related to the school sponsored activity in which the student is involved.

Internal Activity Review Committee (for extracurricular activities)

The board of education has established an IARC composed of the following positions: the principal or principal's designee, regular classroom teacher (in a core subject), athletic director, coach/sponsor, parent. The individuals who shall serve on this committee shall be appointed annually by the board following a recommendation by the superintendent. The superintendent may suggest additional individuals to serve on the committee but shall not have fewer than 5 individuals recommended to serve on the committee. The committee shall resolve questions regarding excused or unexcused absences related to extracurricular activities using procedures that the committee shall designate which allow for consideration of the district's policy, emphasis on the importance of students attending classes on a regular basis, and an opportunity for the student and student's representatives and school representatives to be fully heard regarding the treatment of and consequence of an absence. The committee shall also be responsible for resolving any dispute regarding whether a student made up his or her work within a reasonable period designated by the instructor or administrator.

Any party who objects to a decision of the IARC may appeal the decision to the board of education by filing an appeal within 5 business days of the IARC's written decision with the clerk of the board of education with a copy of the appeal to the superintendent of Schools.

In addition to the above responsibilities the IARC shall review and recommend to the board policy changes or additions designed to ensure that the district's treatment of school attendance and opportunity for participation in extracurricular activities is consistent with applicable law, school board policies and rules and regulations adopted by the Oklahoma State Board of Education and athletics associations in which the district participates.

The board of education has final authority in deciding if a student's deviation from the ten day or class period rule shall be approved. The board can exercise this authority by conducting a hearing in which all sides shall be heard or can exercise its authority by voting to uphold a decision of the IARC or voting not to reconsider the IARC's decision or findings in a particular matter.

Unexcused Absence

This is any absence that does not fall within one of the above categories. Work will be made up with a grade adjustment.

Truancy

A student is considered truant when absent from school without the parents' knowledge or leaving school without permission of the principal or his/her designated representative. Students who are truant will be subject to disciplinary action and will be ineligible to participate in school activities for the day. Truant students will make up all missed work with a grade adjustment.

Tardies

1. A student is tardy who is not in the classroom when the bell to begin the period sounds.
2. A student who is more than fifteen (15) minutes late is counted absent for the period.

WITHDRAWAL FROM SCHOOL

The board of education realizes that a student may need to withdraw from school because of residence relocation or other valid reason. In such a case, the student must notify the principal who will assist the student with out-processing. All district-owned books, supplies, equipment, etc. must be returned to the teachers who distributed them. A clearance slip with the appropriate teachers' signatures must be returned to the principal's office. Any refunds due will be made at that time.

Students are reminded that transcripts and other records will be forwarded to the new school only after proper clearance has been accomplished.

On a quarterly basis as scheduled by the State Department of Education, the superintendent will notify the Department of the name, address, race and age of any student dropping out of school during the preceding quarter. A dropout is any student who is under the age of 19 and has not graduated from high school and is not attending any public or private school or is not otherwise receiving an education pursuant to law for the full term the schools of the district in which the student resides are in session.

Whenever a student over 14 years of age and under 18 years of age withdraws from school, the attendance officer shall notify the Department of Public Safety (DPS) of the withdrawal through a documentation of enrollment status form. When the withdrawal from school is due to circumstances beyond the control of the student or is pursuant to lawful excuse, as confirmed in writing by a parent/guardian of the student, no notice shall be sent to DPS, or if sent, the notice will be disregarded by DPS. The board of education or appropriate designee shall be the sole judge of whether the withdrawal of a student is due to circumstances beyond the control of the student or is made pursuant to lawful excuse.

**TESTING STUDENTS WITH REGARD TO THE USE OF
ALCOHOL AND ILLEGAL CHEMICAL SUBSTANCES**

The board of education, with the intent that all students have notice and knowledge of the ramifications concerning alcohol and illegal chemical substance use, possession, purchase, sale or distribution when the student is on school property, at a school sponsored event, in school vehicles, or going to or from a school sponsored event hereby adopts the following policy.

Statement of Purpose and Intent

1. The safety of students and employees of the district is of paramount concern to the board.
2. Students who are under the influence of alcohol or an illegal chemical substance when the student is on school property, at a school sponsored event, in school vehicles, or going to or from a school sponsored event pose serious safety risks to students, employees and the public.
3. The use of alcohol and illegal chemical substances by students has a direct and adverse effect on the safety, personal health, attendance, productivity and quality of education of all students.
4. The board recognizes that all students have certain personal rights guaranteed by the Constitutions of the United States of America and the State of Oklahoma. This policy will not infringe on those rights.
5. Due to the devastating impact that the use by students of alcohol and illegal chemical substances can have on the safety of students and employees and their adverse affect on a student's ability to perform as a student, the board will not tolerate students who use, possess, distribute, purchase, sell or are under the influence (as defined in the policy) of alcohol or illegal chemical substances while on school property, at a school sponsored event, in school vehicles, or going to or from a school sponsored event.
6. This policy will apply to all students of the district.
7. Violations of this policy will subject the student to disciplinary action, including out-of-school suspension from school.

Definitions

1. "Illegal chemical substance" means any substance which an individual may not sell, possess, use, distribute or purchase under either Federal or Oklahoma law. "Illegal chemical substance" includes, but is not limited to, all scheduled drugs as defined by the Oklahoma Uniform Controlled Dangerous Substances Act, all prescription drugs obtained without authorization and all prescribed drugs and over the counter drugs

being used for an abusive purpose. By way of example only, the drugs which may be tested for are: amphetamines, cannabinoids, cocaine, phencyclidine (PCP), hallucinogens, methaqualone, opiates, barbiturates, benzodiazepines, synthetic narcotics, designer drugs, or any metabolite of any of these substances.

2. "Alcohol" means ethyl alcohol or ethanol and includes "low point" beer.
3. "Under the influence" means any student of the district who has any alcohol or illegal chemical substance or the metabolites thereof present in the student's body in any amount which is considered to be "positive" for such alcohol or drug or drug metabolites using any scientifically substantiated alcohol or drug use screen test and alcohol or drug use confirm test.
4. "Positive" when referring to an alcohol or drug use test administered under this policy means a toxicological test result which is considered to demonstrate the presence of alcohol or an illegal chemical substance or the metabolites thereof using the cutoff standards or levels determined by the State Board of Health for drug or alcohol testing of students or in the absence of such State Board cutoff levels, the cutoff levels customarily established by the testing laboratory administering the alcohol or drug use test.
5. "School property" means any property owned, leased or rented by the district, including but not limited to school buildings, parking lots and motor vehicles.
6. "Drug or alcohol use test" means a chemical test administered for the purpose of determining the presence or absence of alcohol or illegal chemical substances or their metabolites in a student's blood, bodily tissue, fluids, products, urine, breath or hair.
7. "Reasonable suspicion" means a belief that a student is using or has used alcohol or drugs in violation of this policy drawn from specific objective and articulable facts and reasonable inferences drawn from those facts in the light of experience, and may be based upon, among other things:
 - A. Observable phenomena, such as:
 - i. the physical symptoms or manifestations of being under the influence of alcohol or a drug while on school property, at a school sponsored event, in school vehicles, or going to or from a school sponsored event; or
 - ii. the direct observation of alcohol or drug use while on school property, at a school sponsored event, in school vehicles, or going to or from a school sponsored event.
 - B. A report of drug or alcohol use while on school property, at a school sponsored event, in school vehicles, or going to or from a school sponsored event, provided by reliable and credible sources;
 - C. Evidence that a student has tampered with an alcohol or drug test; or

- D Evidence that a student is involved in the use, possession, sale, solicitation or transfer of alcohol or drugs while on school property, at a school sponsored event, in school vehicles, or going to or from a school sponsored event.

Procedures for Alcohol or Illegal Chemical Substance Testing

1. Any alcohol or drug use test administered under the terms of this policy will be administered by or at the direction of a professional laboratory licensed by the Oklahoma State Department of Health and using scientifically validated toxicological methods that comply with rules promulgated by the State Department of Health. The professional laboratory shall be required to have detailed written specifications to assure chain of custody of the samples, proper labeling, proper laboratory control and scientific testing, with all samples to be taken under the supervision of appropriate laboratory employees at a school site or site designated by the laboratory. All aspects of the alcohol and drug use testing program, including the taking of samples, will be conducted so as to safeguard the personal and privacy rights of students to the maximum degree possible and shall be conducted under reasonable sanitary conditions. The test sample shall be obtained in a manner which minimizes its intrusiveness.

In the case of urine samples, the samples must be collected in a restroom or other private facility behind a closed stall; a sample shall be collected in sufficient quantity for splitting into two (2) separate samples, pursuant to rules of the State Board of Health, to provide for any subsequent independent confirming analysis of the first sample; the test monitor shall not observe any student while the sample is being produced but the test monitor may be present outside the stall to listen for the normal sounds of urination in order to guard against tampered samples and to insure an accurate chain of custody; and the test monitor may verify the normal warmth and appearance of the sample. If at any time during the testing procedure the test monitor has reason to believe or suspect that a student is tampering with the sample, the test monitor may stop the procedure and inform the test coordinator. The test monitor shall be of the same gender as the student giving the sample.

If a student is determined to have tampered with any specimen or otherwise engaged in any conduct which disrupts the testing process of any student, then the student will be deemed to have violated this policy and will be subject to disciplinary action, including out-of-school suspension from school.

The test monitor shall give each student a form on which the student may, but shall not be required to, list any medications he has taken or any other legitimate reasons for having been in recent contact with alcohol or illegal chemical substances.

2. If the initial drug use test is positive for the presence of an illegal chemical substance or the metabolites thereof, the initial test result will be subject to confirmation by a second and different test of the same sample. The second test will use an equivalent scientifically accepted method of equal or greater accuracy as approved by rules of the State Board of Health, at the cutoff levels determined by board rules. A student will not be subject to disciplinary procedures unless the second test is positive for the presence of illegal chemical substances or the metabolites thereof.
3. If an initial alcohol use test is positive for the presence of alcohol, the initial test result will be subject to confirmation by a second test using any scientifically accepted

method approved by rules of the State Board of Health, at the cutoff levels determined by board rules.

4. Upon written request, the student will be furnished with a free copy of all test results performed under this policy. All test records and results will be confidential and kept in files separate from the student's cumulative records. All tests required of a student by the district under this policy shall be at district expense.
5. Any student who is subject to disciplinary action as a result of being under the influence of alcohol or an illegal chemical substance while on school property, at a school sponsored event, in school vehicles or going to or from a school sponsored event will be given a reasonable opportunity, in confidence, to explain or rebut the alcohol or drug use test results. If the student asserts that the positive test results are caused by other than consumption of alcohol or an illegal chemical substance by the student, then the student will be given an opportunity to present evidence that the positive test result was produced by other than consumption of alcohol or an illegal chemical substance. The district will rely on the opinion of the district's laboratory which performed the tests in determining whether the positive test result was produced by other than consumption of alcohol or an illegal chemical substance.
6. The laboratory reports and results of alcohol and drug use testing will be maintained on a confidential basis except as otherwise required by law. The laboratory performing alcohol or drug use tests for the district will not report on or disclose to the district any physical or mental condition affecting a student which may be discovered in the examination of a sample other than the presence of alcohol or illegal chemical substances or the metabolites thereof. The use of samples to test for any other substances will not be permitted.

Student Alcohol and Drug Use Tests - When Required

1. Any student whose behavior while on school property, at a school sponsored event, in school vehicles, or going to or from a school sponsored event creates a reasonable individualized suspicion that the student is under the influence of alcohol or an illegal chemical substance may be required to take an alcohol and/or drug use test. Nothing in this policy shall require alcohol and/or drug use testing of any student nor prohibit the district from disciplining any student in the absence of an alcohol or drug use test of the student.
2. Any student who refuses to take an alcohol or drug use test when so required under the provisions of this policy will be deemed to have violated this policy and will be subject to disciplinary action including out-of-schools suspension from school to the same extent as if the student tested positive for the presence of alcohol or illegal chemical substances.

Student Use, Sale, Possession, Distribution, Purchase or Being Under the Influence of Alcohol or Illegal Chemical Substance

Any student who possesses, uses, distributes, purchases, sells or is confirmed by alcohol or drug use tests to be under the influence (as defined by this policy) of alcohol or an illegal chemical substance while on school property, at a school sponsored event, in school vehicles, or going to or from a school sponsored event or as a result of alcohol or drug use tests conducted under this policy will be subject to disciplinary action, including out-of-

school suspension from school.

Persons Authorized to Order Alcohol or Drug Testing

The following persons have the authority to require alcohol or drug use testing of students under this policy:

1. The superintendent;
2. Any employee designated for such purposes by the superintendent or the board.

Out-of-School Suspension Due Process Procedures

Any student who is subject to an out-of-school suspension for the violation of this policy shall be afforded appropriate due process procedures allowed by the district's policy on student behavior.

Circulation of Policy

This policy shall be given broad circulation to all students of the district which shall include prominent posting at various places in the district.

EXTRACURRICULAR ACTIVITIES
STUDENT ALCOHOL AND DRUG TESTING

The board of education, in order to protect the health and safety of students participating in extracurricular activities and to educate and direct students participating in extracurricular activities away from drug and alcohol use and abuse, thereby setting an example for all other students of the district, adopts the following policy for testing of students participating in extracurricular activities for the use of illegal drugs, alcohol and performance enhancing drugs.

Statement of Purpose and Intent

1. It is the desire of the board, administration and staff that every student in the district refrain from using or possessing alcohol and illegal or performance enhancing drugs. Notwithstanding this desire, the administration and board of education realize that their power to restrict the possession or use of alcohol and illegal or performance enhancing drugs is limited. Therefore, except as provided below, the sanctions of this policy relate solely to limiting the opportunity of any student determined to be in violation of this policy to participate in extracurricular activities. This policy is intended to supplement and complement all other policies, rules and regulations of the school district regarding possession or use of alcohol and illegal or performance enhancing drugs.
2. Participation in school-sponsored extracurricular activities at the school district is a privilege, not a right. Students who participate in these activities are respected by the student body and are expected to conduct themselves as good examples of behavior, sportsmanship and training. Accordingly, students who participate in extracurricular activities carry a responsibility to themselves, their fellow students, their parents and their school to set the highest possible example of conduct, which includes avoiding the use or possession of alcohol and illegal or performance enhancing drugs.
3. The purpose of this policy is to prevent alcohol and illegal or performance enhancing drug use, to educate students who participate in extracurricular activities as to the serious physical, mental and emotional harm caused by alcohol and illegal or performance enhancing drug use, to alert students participating in extracurricular activities who have possible substance abuse problems to the potential harms of use, to prevent injury, illness and harm as a result of alcohol and illegal or performance enhancing drug use, and to strive within the school district for an environment free of alcohol and illegal or performance enhancing drug possession and use. This policy is not intended to be disciplinary or punitive in nature. The sanctions of this policy relate solely to limiting the opportunity of any student who participates in extracurricular activities and who is found to be in violation of the policy to participate in extracurricular activities. There will be no academic sanction solely for a violation of this policy. Notwithstanding the foregoing, a student may be

disciplined, including suspended out of school, if a violation of this policy also results in a violation of the school district's student behavior policy.

Definitions

- Extracurricular - means any school district sponsored team, club, organization or activity in which student participation is not required as a part of the school district curriculum and in which students represent the school district in competitions sanctioned by the Oklahoma Secondary Schools Activities Association.
- Student extracurricular activities participant - means any student participating in any competitive extracurricular activity.
- Student Athlete - means a 6th-12th grade member of any school district sponsored interscholastic sports team, including athletes and cheerleaders.
- Coach/Sponsor - means any person employed by the school district to coach athletic teams of the school district, to act as a sponsor or coach of a cheerleader team of the school district, or to serve as sponsor for any other extracurricular activity.
- Athletics and athletic activity - means participation by a student athlete on any athletic team or cheerleader team sponsored by the school district.
- In-season - means anytime during the day, night, weekends or holidays, including all time in and away from school during the entire school year for all student extracurricular activities participants.
- Alcohol - means ethyl alcohol or ethanol and any alcoholic beverage and includes "low-point beer" as defined by Oklahoma law.
- Illegal drugs - means any substance which an individual may not sell, possess, use, distribute or purchase under either federal or Oklahoma law. "Illegal drugs" includes, but is not limited to, all scheduled drugs as defined by the Oklahoma Uniform Controlled Dangerous Substance Act, all prescription drugs obtained without authorization and all prescribed and over-the-counter drugs being used for an abusive purpose, and paraphernalia to use such drugs.
- Performance enhancing drugs - include anabolic steroids and any other natural or synthetic substance used to increase muscle mass, strength, endurance, speed or other athletic ability. The term "performance enhancing drugs" does not include dietary or nutritional supplements such as vitamins, minerals and proteins which can be lawfully purchased in over-the-counter transactions.
- Drug or alcohol use test - means a chemical test administered for the purpose of determining the presence or absence of alcohol or illegal or performance enhancing chemical substances or their metabolites in a student's blood, bodily tissue, fluids, products, urine, breath or hair.
- Random selection basis - means a mechanism for selecting student extracurricular activities participants for drug and/or alcohol use testing that:
 - results in an equal probability that any student extracurricular activity

participant from a group of student extracurricular activity participants subject to the selection mechanism will be selected, and

- does not give the school district discretion to waive the selection of any student extracurricular activity participant selected under the mechanism.
- Positive - when referring to an alcohol or drug use test administered under this policy means a toxicological test result which is considered to demonstrate the presence of alcohol or an illegal or a performance enhancing drug or the metabolites thereof using the standards customarily established by the testing laboratory administering the drug or alcohol use test.
- Reasonable suspicion - means a suspicion based on specific personal observations concerning the appearance, speech or behavior of a student extracurricular activity participants and reasonable inferences drawn from those observations in the light of experience. Information provided by a reliable source, if based on personal knowledge, shall constitute reasonable suspicion. In the context of performance enhancing drugs, reasonable suspicion specifically includes unusual increases in size, strength, weight or other athletic abilities.
- Games/competitions - mean regular season, tournament and playoff games/competitions and do not include practice games and scrimmages.

Participation and Procedures

1. Alcohol and illegal or performance enhancing drug possession or use is incompatible with participation in extracurricular activities on behalf of the school district. For the safety, health and well being of the student extracurricular activity participants of the school district, the school district has adopted this policy for use by all participating students at the 6th-12th grade level. Any student found to be in possession of, or having used alcohol or illegal or performance enhancing drugs, either by observation or drug or alcohol use test, will be considered to have violated this policy.
2. Each student extracurricular activity participant shall be provided with a copy of this policy and the "Student Extracurricular Activity Participant Alcohol and Illegal or Performance Enhancing Drugs Contract (the "Contract") which shall be read, signed and dated by the student, parent or custodial guardian and a coach/sponsor before such student shall be eligible to practice or participate in any extracurricular activity. No student shall be allowed to practice or participate in any extracurricular activity unless the student has returned the properly signed Contract.
3. The principal and sponsor, or, in the case of student athletes only, the athletic director and applicable coach, shall be responsible for determining whether a violation of this policy has occurred when an observation of possession or use of alcohol or illegal drug by a student extracurricular activity participant has been reported. If a violation of the policy is determined to have occurred by a student extracurricular activities participant other than a student athlete, the principal will contact the student, the sponsor, and the parent or custodial guardian of the student and schedule a conference. If a violation of the policy is determined to have occurred by a student athlete, the athletic director will contact the student, the sponsor or head coach, the applicable principal, and the parent or custodial

guardian of the student and schedule a conference. At the conference, the violation of the policy will be described and the restrictions explained.

4. The Contract for alcohol and illegal or performance enhancing drug and/or alcohol use testing shall be to provide a urine sample:
 - A. for student athletes, as part of the annual physical examination, and for all other student extracurricular activity participants, either
 - (i) prior to the start of the season for the extracurricular activity in which a student extracurricular activities participant competes, or
 - (ii) if the extracurricular activity has no established season, within one week after the first day of classes at the beginning of the school year;
 - B. as chosen by the random selection basis; and
 - C. at any time a student extracurricular activities participant is requested by the principal or athletic director or by the sponsor or coach, based on reasonable suspicion, to be tested for alcohol and illegal or performance enhancing drugs.
5. All student extracurricular activities participants shall be required to provide a urine sample for drug use testing for illegal drugs as part of the annual physical examination for student athletes and either prior to the start of the season for the extracurricular activity in which a student extracurricular activities participant competes, or, if the extracurricular activity has no established season, within one week after the first day of classes at the beginning of the school year. Student athletes who have physical examinations performed by their personal physicians must nonetheless sign the Contract and comply with all policy requirements.
6. Drug and/or alcohol use testing for student extracurricular activities participants will also be chosen on a random selection basis weekly from a list of all in-season student participants. The school district will determine a weekly number of student names to be drawn at random to provide a urine sample for drug and/or alcohol use testing for alcohol and/or illegal or performance enhancing drugs.
7. In addition to the drug and alcohol use tests required by paragraphs 4, 5 and 6, any student extracurricular activities participant may be required to submit to a drug and/or alcohol use test for alcohol or illegal or performance enhancing drugs or the metabolites thereof at any time upon reasonable suspicion.
8. The school district will set a fee charge to be collected from each student when the Contract is signed and returned to the coach or sponsor.
9. Any alcohol or drug use test required by the school district under the terms of this policy will be administered by or at the direction of a professional laboratory chosen by the school district using scientifically validated toxicological methods. The professional laboratory shall be required to have detailed written specifications to assure chain of custody of the specimens, proper laboratory control and scientific testing.

10. All aspects of the alcohol or drug use testing program, including the taking of specimens, will be conducted so as to safeguard the personal and privacy rights of the student extracurricular activities participants to the maximum degree possible. The test specimen shall be obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the specimen must be collected in a restroom or other private facility behind a closed stall. The principal or athletic director shall designate a sponsor or coach or other adult person of the same sex as the student to accompany the student to a restroom or other private facility behind a closed stall. The monitor shall not observe the student while the specimen is being produced, but the monitor shall be present outside the stall to listen for the normal sounds of urination in order to guard against tampered specimens and to insure an accurate chain of custody. The monitor shall verify the normal warmth and appearance of the specimen. If at any time during the testing procedure the monitor has reason to believe or suspect that a student is tampering with the specimen, the monitor may stop the procedure and inform the principal or athletic director who will then determine if a new sample should be obtained. If a student is determined to have tampered with any specimen or otherwise engaged in any conduct that disrupts the testing process of any student, then the student will be deemed to have committed a second offense under this policy and the sanctions for a second offense will be imposed. The monitor shall give each student a form on which the student may list any medications he/she has taken or any other legitimate reasons for having been in contact with illegal drugs or performance enhancing drugs in the preceding thirty (30) days. The medication list may be submitted to the lab in a sealed and confidential envelope.
11. If an initial drug use test is positive, the initial test result will be subject to confirmation by a second and different test of the same specimen. The second test will use an equivalent scientifically accepted method of equal or greater accuracy. A specimen shall not be reported positive unless the second test is positive for the presence of an illegal drug or performance enhancing drug or the metabolites thereof. If an initial alcohol use test is positive for the presence of alcohol, the initial test result will be subject to confirmation by a second test using any scientifically accepted method. The unused portion, if any, of a specimen that tested positive for alcohol or illegal or performance enhancing drugs shall be preserved by the laboratory for a period of six (6) months.
12. If the alcohol or drug use test for any student extracurricular activities participant has a positive result, the laboratory will contact the principal or the athletic director with the results. In the case of student extracurricular activities participants who are not athletes, the principal will contact the student, the sponsor, and the parent or custodial guardian of the student and schedule a conference. In the case of student athletes, the athletic director will contact the student, the sponsor or head coach, the applicable principal, and the parent or custodial guardian of the student and schedule a conference. At the conference, the principal or the athletic director will solicit any explanation for the positive result and ask for doctor prescriptions of any drugs that the student was taking that might have affected the outcome of the alcohol or drug use test. If the student and his/her parent or custodial guardian desire another test of the remaining portion, if any, of the specimen, the principal or athletic director will arrange for another test at the same laboratory or at another laboratory agreeable to the principal or athletic director. Any such re-test shall be at the expense of the student and his/her parent or custodial guardian.

13. If the student extracurricular activities participant asserts that the positive test results are caused by other than consumption of alcohol or an illegal or performance enhancing drug by the student, then the student will be given an opportunity to present evidence of such to the principal or to the athletic director. The school district will rely on the opinion of the original laboratory that performed the test in determining whether the positive test result was produced by other than consumption of alcohol or an illegal or performance enhancing drug.
14. A student who has been determined by the principal or the athletic director to be in violation of this policy shall have the right to appeal the decision to the superintendent or his/her designee(s). Such appeal must be lodged within five (5) business days of notice of the initial report of the offense, during which time the student will remain ineligible to participate in any extracurricular activities. The superintendent or his/her designee(s) shall then determine whether the original finding was justified. There is no further appeal right from the superintendent's decision and his/her decision shall be conclusive in all respects. Any necessary interpretation or application of this policy shall be the sole and exclusive judgment and discretion of the superintendent which shall be final and nonappealable.
15. Before a student extracurricular activities participant who has tested positive in an alcohol or drug use test may rejoin his/her extracurricular activity after a first or second offense, such student may be required to undergo one or more additional alcohol or drug use tests to determine whether the student is no longer using alcohol or illegal or performance enhancing drugs. The school district will rely on the opinion of the laboratory which performed or analyzed the additional alcohol or drug use test in determining whether a positive result in the additional alcohol or drug use test was produced by alcohol or illegal or performance enhancing drugs used by the student before the offense or by more recent use. In addition, a student extracurricular activities participant who has tested positive in an alcohol or drug use test may be required to submit to one or more additional alcohol or drug use tests for up to a year following the date of the positive result, notwithstanding that such student has been permitted to rejoin his/her extracurricular activity.
16. All documents created pursuant to this policy with regard to any student will be kept in a confidential folder and will never be made a part of the student's cumulative folder nor be considered a "disciplinary" record.

Violation

Any student who is determined by observation or by alcohol or drug use tests to have violated this policy shall be subject to the loss of the privilege to participate in extracurricular activities and offered educational and support assistance to stop using.

For the First Offense

Suspension from participation in all scheduled extracurricular activities (including all meetings, practices, performances and games/competitions) for 30 school days which may be reduced by 15 school days (five school days reduced for professional drug/alcohol evaluation/assessment and ten school days reduced for participating in and successfully completing at least four (4) hours of substance abuse education/counseling provided by the school district or an outside agency). A student extracurricular activities participant must miss a minimum of two (2)

games/competitions. If the student is not competing in an extracurricular activity during any suspension period due to injury, academic ineligibility or the games or competitions for that sport or activity are finished or have not begun for that school year and, therefore, does not miss a minimum of two games/competitions during the suspension period, then the student will be required to miss the next two games/competitions after he or she returns from the injury, becomes eligible or the games or competitions resume in the following school year or begin later in the same school year. These restrictions and requirements shall begin immediately following the determination of an observed violation or the reporting of the results of a positive alcohol or drug use test. Such suspension will extend into a succeeding competition season if necessary to fulfill the suspension.

For the Second or Subsequent Offense (in the same school year)

Complete suspension from participation in all extracurricular activities including all meetings, practices, performances and competition for eighteen (18) continuous and successive school weeks from the date of the determination of a violation or the reporting of the results of a positive alcohol or drug use test under this policy. Such suspension will extend into a succeeding school year if necessary to fulfill the suspension. Offenses shall not accumulate from school year to school year; the eighteen (18) week suspension from participation in all extracurricular activities shall come into play only when two (2) or more offenses are committed in the same school year.

Self-Referral

As an option to the consequences for a first offense only, a student may self-refer to the principal or athletic director or to a coach or sponsor before being notified of a policy violation or prior to being asked or required to submit to an alcohol or drug use test. A student who self-refers will be allowed to remain active in all extracurricular activities after the following conditions have been fulfilled: a conference has been held with the student, the principal or athletic director, the sponsor or coach, and the parent or custodial guardian of the student to discuss the policy violation; an alcohol or drug use test is provided by the student that is not positive, and a participation commitment by the student and parent for four (4) hours of substance abuse education/counseling provided by the school or an outside agency. Documentation of successful completion of this commitment must be provided to the principal or athletic director by the student or parent. A student who self-refers will, however, be considered to have committed his/her first offense under this policy. A self-referral may be used only once in a student's time in the school district.

Refusal to Submit to Alcohol or Drug Use Test

If, after signing the Contract, a student extracurricular activities participant refuses to submit to an alcohol or drug use test authorized under this policy, such student shall not be eligible to participate in any extracurricular activities including all meetings, practice, performances and competition for eighteen (18) continuous and successive school weeks. Such suspension will extend into a succeeding school year if necessary to fulfill the suspension.

Extracurricular Activities Participant Alcohol and Illegal or Performance Enhancing Drugs Contract

Statement of Purpose and Intent

Participation in school sponsored extracurricular activities at the school district is a privilege and not a right. Such privilege is governed by the attached policy on Testing for Alcohol and Illegal or Performance Enhancing Drugs. Alcohol and illegal or performance enhancing drug use of any kind is incompatible with participation in extracurricular activities on behalf of the school district. Students who participate in activities are respected by the student body and are expected to hold themselves as good examples of conduct, sportsmanship and training. Accordingly, student extracurricular activities participants carry a responsibility to themselves, their fellow students, their parents and their school to set the highest possible examples of conduct, which includes avoiding the use or possession of alcohol or illegal or performance enhancing drugs.

Participation in Extracurricular Activities

For the safety, health and well-being of students, the district has adopted the attached policy and this Student Extracurricular Activities Participant Alcohol and Illegal or Performance Enhancing Drugs Contract (the "Contract") which shall be read, signed and dated by the student, parent or custodial guardian and sponsor or coach before such student shall be eligible to practice or participate in any extracurricular activity. No student shall be allowed to practice or participate in any extracurricular activity unless the student has returned the properly signed Contract.

Student Section

I understand after having read the policy and this Contract that, out of care for my safety and health, the district enforces the rules applying to the consumption or possession of alcohol and illegal or performance enhancing drugs. As a student extracurricular activities participant, I realize that the personal decision that I make daily in regard to the consumption or possession of alcohol and illegal or performance enhancing drugs may affect my health and well-being as well as the possible endangerment of those around me and reflect upon any organization with which I am associated. If I choose to violate the policy regarding the use or possession of alcohol and illegal or performance enhancing drugs any time during the school year, I understand upon determination of that violation I will be subject to the restrictions of my participation as outlined in the policy.

PROTECTION OF PUPIL RIGHTS AMENDMENT

For purposes of this policy, the following definitions apply:

“Instructional material” means instructional content that is provided to a student, regardless of its format, including printed or representational materials, audio-visual materials, and materials in electronic or digital formats (such as materials accessible through the Internet). The term does not include academic tests or academic assessments.

“Invasive physical examination” means any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision, or scoliosis screening.

“Parent” includes a legal guardian or other person standing in loco parentis (such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible for the welfare of the child). All rights provided to parents under this policy transfer to the student when the student turns 18 years old or is an emancipated minor at any age.

“Personal information” means individually identifiable information including (i) a student or parent’s first and last name; (ii) a home or other physical address (including street name and the name of the city or town); (iii) a telephone number); or (iv) a Social Security identification number.

“Survey” includes an evaluation.

Inspection of Instructional Materials

All instructional materials, including teacher’s manuals, films, tapes, or other supplementary instructional material that will be used in connection with any survey, analysis, or evaluation as part of any applicable program shall be available for inspection by the parents of students in the district. However, teacher lesson plans and tests are confidential records under the Oklahoma Open Records Act. After request by a parent, review of instructional materials shall be at a time mutually convenient to the teacher involved and the parent. Any complaint by a parent regarding the parent’s inability to inspect any instructional material shall initially be addressed to the principal of the school where the parent’s child attends. If the parent is dissatisfied with the principal’s decision, then the parent may request review by the superintendent, or his or her designee, who shall have final authority over the matter.

Establishing a curriculum and determining to include or remove particular materials within the curriculum are the legal responsibilities of the board of education subject to statutory and state board of education guidelines. Nothing in this policy is intended to grant or require prior parental approval or control of materials or parental control, approval or review of teaching techniques or methods.

Surveys

No student shall be required to submit to a survey, analysis, written examination or evaluation that reveals information concerning the following without the parent's prior consent:

1. Political affiliations or beliefs of the student or the student's family;
2. Religious practices, affiliations, or beliefs of the student or the student's parent;
3. Sexual behavior or attitudes;
4. Illegal, anti-social, self-incriminating or demeaning behavior;
5. Mental or psychological problems of the student or the student's family;
6. Critical appraisals of other individuals with whom the student has a close family relationship;
7. Legally recognized privileged or analogous relationships, such as those of lawyers, physicians and ministers; and
8. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Parents may inspect, upon request, a survey created by a third party before the survey is administered or distributed to students. Review of such surveys shall be at a time mutually convenient to the principal involved and the parent. Any complaint by a parent regarding the parent's inability to inspect any such survey shall be addressed to the superintendent, or his or her designee, who shall have final authority over the matter.

The district will take appropriate steps in compliance with the Family Educational Rights and Privacy Act to protect student privacy in the event of the administration or distribution of a student survey containing one or more of the items mentioned above.

Psychiatric or Psychological Examinations

Without the prior written consent of the parent or guardian, no student who is an unemancipated minor shall be required, as part of any applicable program, to submit to psychiatric or psychological examination, testing or treatment.

Notification and Opt-Out

The district will directly notify parents, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when the following activities are scheduled or expected to be scheduled:

1. Activities involving the collection, disclosure or use of personal information collected from students for the purpose of marketing or selling that information or providing that information to others for that purpose. These activities do not include information for the exclusive purpose of developing,

evaluating or providing educational products or services for or to students or educational institutions, such as:

- A. College or other postsecondary education recruitment, military recruitment;
 - B. Book clubs, magazines, and programs providing access to low-cost literary products;
 - C. Curriculum and instructional materials used by elementary and secondary schools;
 - D. Tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic clinical, aptitude, or achievement information about students and the subsequent analysis and public release of the aggregate data from such tests and assessments;
 - E. The sale by students of products or services to raise funds for school-related or education-related activities; and
 - F. Student recognition programs.
2. The administration of any survey containing one or more items described above in the Surveys section of this policy; and
 3. Any non-emergency, invasive physical examination or screening that is (i) required as a condition of attendance; (ii) administered by and scheduled by the school in advance; and (iii) not necessary to protect the immediate health and safety of the student or other students. This provision does not apply to any physical examination or screening that is permitted or required by state law, including physical examinations or screening that is permitted without parental notification.

Inspection of Data Collection Instruments

The district will take appropriate steps in compliance with the Family Educational Rights and Privacy Act to protect student privacy in the event of such collection, disclosure or use of personal information collected from students for the purpose of marketing or selling that information or providing that information to others for that purpose. Parents and eligible students may inspect, upon request, any instrument used in the collection of such information before the instrument is administered or distributed to students. Review of such instruments shall be at a time mutually convenient to the principal involved and the parent. Any complaint by a parent regarding the parent's inability to inspect any such survey shall be addressed to the superintendent, or his or her designee, who shall have final authority over the matter.

**NOTICE REGARDING STUDENT ORGANIZATIONS AND
PARENTAL RIGHT TO WITHHOLD PERMISSION TO PARTICIPATE**

The purpose of this notice is to provide parents and guardians with information regarding clubs and organizations which are sponsored by or under the direction and control of the district as required by Oklahoma law. A complete listing of district sponsored clubs, as well as their faculty advisor and the purpose of the club, is contained in student handbooks and on the district's website. The listing will be updated annually, or more often as needed.

If you wish to withhold permission for your student to join or participate in one or more district sponsored clubs or organizations, you may notify the district in writing of this fact. Please note that you may not withhold permission for your student's participation in clubs and organizations that are necessary for a required course of instruction. In addition, pursuant to Oklahoma law, you are solely responsible for preventing your student from participating in a club or organization for which you have withheld permission and you are also solely responsible for retrieving your student from attendance at a club or organization for which permission has been withheld.

Oklahoma law states that nothing prevents a club or organization from meeting when a student who is not authorized to participate is present.

The district is not required to give notice about independent student-organized groups, as they are not sponsored, directed or controlled by the district

**DISTRICT WIDE PARENTAL INVOLVEMENT
(Parents' Bill of Rights)**

The board supports parents' efforts to be involved in the district's education programs. This policy outlines the district's efforts to educate parents and support parent involvement in response to the 2014 Parents' Bill of Rights.

Parents have the right be involved in their minor child's education, including directing that education. Parents are encouraged to exercise their rights in conjunction with district guidance so as not to inadvertently impede their minor child's compliance with federal and state mandated requirements – including requirements related to graduation. Parents also have the right to review school records related to their minor child.

Parents generally have the right to consent prior to an audio or video recording being made of their minor child. This right does not preempt the district's right to make recordings (without specific parental approval) related to:

- safety, general order and discipline
- academic or extracurricular activities
- classroom instruction
- security/surveillance of the buildings or grounds
- photo ID cards

Parents have the right to receive prompt notice if their minor child is believed to be the victim of a crime perpetrated by someone other than the parent, unless law enforcement or DHS officials have determined that parental notification would impede the related investigation. These notice provisions do not apply to matters which involve routine misconduct typically addressed through student discipline procedures. School personnel will not attempt to encourage or coerce a child to withhold information from parents.

1. The district will promote parent participation at the site level with the goal of improving parent and teacher cooperation in areas such as homework, attendance and discipline. This will be accomplished through activities such as:

- Parent teacher conferences
- Back to school / meet the teacher nights
- Calendar system on school website
- Mail-outs, email correspondence or use of the automated phone system

2. The district will inform parents about their children's course of study by disseminating this information:

- During annual enrollment
- In student handbooks

Parents may review learning materials affecting their minor children's course of

study, including supplemental materials, by making a request through the building principal.

3. Parents who object to a learning material or activity may withdraw their minor child from the class or program in which the material is used. In order to withdraw a student, the parent must submit a written request, signed and dated by a parent, to the building principal. Parents who choose to withdraw their minor child from a required class are responsible for making alternate arrangements for the child to earn credit for the class.
4. The district offers sex education in grades 8 and 12. Parents who object to their minor child participating in the district's sex education program must submit a written notice, signed and dated by a parent, to the principal in order for their child to be excused from participation. Students who are not participating in the district's sex education program will be permitted to study in the school library or office during sex education instruction.
5. If a teacher is going to provide instruction or presentations regarding sexuality in a course apart from formal sex education, the teacher will send written notice home to parents 5 days in advance of the presentation. Parents who object to their minor child's participation in such instruction may send a written request to the building principal to have the student excused from the presentation. Any such student will be permitted to study in the school library or office during the presentation.
6. Parents may learn about the nature and purpose of clubs and activities which are part of the school curriculum by reviewing student handbooks and the district's website. The district's extracurricular clubs and activities are also published in student handbooks and the district's policy manual. Additional information may be found on the school website.
7. Parents have numerous rights and decision making responsibilities concerning their minor children. To assist parents in meeting these responsibilities and to fulfill its obligations under the 2014 Parent Bill of Rights, the district has compiled the following information for parents:
 - A. The district provides sex education to students in grades 8 and 12. Parents may opt their student out of the district's sponsored sex education program by following the procedures established in item 4 above.
 - B. Parents who are not residents of the district may enroll their minor children in the district's schools in accordance with the district's open transfer policy. A copy of that policy is available in the superintendent's office.
 - C. The district utilizes a number of resources to educate students. Parents who object to an assignment based on sex, morality or religion may opt their minor child out of the assignment by following the procedures established in item 3 above.
 - D. Students are generally required to receive a predetermined set of immunizations prior to enrolling in school and to receive additional boosters throughout enrollment in the district. This requirement may be waived if the parent submits a note from the minor child's physician stating that the child

should be excused from the immunization for health reasons or if the parent submits a note objecting to the immunization of the child.

- E. Students are required to meet certain obligations in order to be promoted to a subsequent grade, particularly with regard to learning to read. Parents can learn about these requirements – including efforts the district will take in order to help students become successful readers – by reviewing the district’s policies on Reading Sufficiency Act testing, and student promotion. Copies of these policies are available in the superintendent’s office.
- F. Students are required to meet certain obligations in order to graduate from high school. Parents can learn about these requirements each year during course enrollment. This information is also available in student handbooks and on the Oklahoma State Department of Education’s website (www.ok.gov/sde/).
- G. The district provides AIDS education for students in grades 8 and 12. Parents may opt their minor student out of this education by submitting a written request, signed and dated by a parent, to the building principal. Students who are not participating in the district’s AIDS education program will be permitted to study in the school library or office during the scheduled instruction.
- H. Parents have the right to review student test results related to their minor student. Parents may review the results of classroom exams by contacting their child’s teacher. Parents may review the results of state-wide testing by contacting their child’s building principal.
- I. Qualifying students have the right to participate in the district’s gifted and talented program in accordance with the district’s policy regarding the program. A copy of the policy is available through the superintendent’s office.
- J. Parents have the right to review teachers’ manuals, films, tapes or other supplementary instructional material if the materials are being used in connection with a research or experimentation program or project. In order to review these materials, the parent should contact the building principal.
- K. Parents have the right to receive a school report card. Information regarding these report cards will be provided through school publications, but a copy of the actual report card is available in the superintendent’s office.
- L. Students are required to attend school regularly, and the district is required to notify parents of any student absence unless the parent has already contacted the school to report the absence. The district will send a written notice to parents if their minor student appears to be in danger of exceeding the maximum allowable number of absences and will notify the district attorney and the parent if a child may be considered truant. Parents may contact the child’s principal for additional information regarding student absences.
- M. Parents have the right to review the district’s courses of study and textbooks. Arrangements for this review can be made through the building principal.

- N. Students may be excused from school for religious purposes provided the parent contacts the building principal to request such an absence.
- O. Parents have the right to review all district policies, including parental involvement policies. Copies of these policies are available through the superintendent's office.
- P. Parents have the right to participate in parent-teacher organizations. Information regarding these groups will be made available during activities such as enrollment, schedule pickups and back to school night. Parents who wish to have additional information regarding these groups can obtain more detail through the principal's office.
- Q. Parents may opt out of selected district level data collection related to state longitudinal student data system reporting. Parents may not opt out of necessary and essential record collecting. Parents may file an opt out request through the superintendent's office.

Parents requesting information outlined in this policy should submit written requests for information through the building principal or superintendent's office, as noted in the respective section. Appropriate school personnel will either make the information available or provide a written explanation of why the information is being withheld within ten (10) days of the request. Any parent whose request is denied or who does not receive a response within fifteen (15) days may submit a written request for the information to the board of education. The board will include an item on its next public meeting agenda (or the following meeting, if time does not permit inclusion of the item on the agenda) to allow the board to formally consider the parent's request.

OKLA. STAT. tit. 25 § 2001

DISTRICT WIDE PARENTAL INVOLVEMENT POLICY
(Title I, Part A Programs)

PART I. GENERAL EXPECTATIONS

The purpose of this policy is to establish the district's expectations for parental involvement. [Section 1118(a)(2), ESEA.] The district agrees to implement the following statutory requirements:

1. The school district will put into operation programs, activities and procedures for the involvement of parents in all of its schools with Title I, Part A programs, consistent with section 1118 of the Elementary and Secondary Education Act (ESEA). Those programs, activities and procedures will be planned and operated with meaningful consultation with parents of participating children.
2. Consistent with section 1118, the school district will work with its schools to ensure that the required school-level parental involvement policies meet the requirements of section 1118(b) of the ESEA, and each include, as a component, a school-parent compact consistent with section 1118(d) of the ESEA.
3. The school district will incorporate this district wide parental involvement policy into its LEA plan developed under section 1112 of the ESEA.
4. In carrying out the Title I, Part A parental involvement requirements, to the extent practicable, the school district and its individual schools will provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information and school reports required under section 1111 of the ESEA in an understandable and uniform format and, including alternative formats upon request, and, to the extent practicable, in a language parents understand.
5. If the LEA plan for Title I, Part A, developed under section 1112 of the ESEA, is not satisfactory to the parents of participating children, the school district will submit any parent comments with the plan when the school district submits the plan to the State Department of Education.
6. The school district will involve the parents of children served in Title I, Part A schools in decisions about how the 1 percent of Title I, Part A funds reserved for parental involvement is spent, and will ensure that not less than 95 percent of the one percent reserved goes directly to the schools.
7. The school district will be governed by the following statutory definition of parental involvement, and expects that its Title I schools will carry out programs, activities and procedures in accordance with this definition:

Parental involvement means the participation of parents in regular, two-way, and meaningful communication involving student academic learning and other school activities, including ensuring—

- A. that parents play an integral role in assisting their child's learning;*
- B. that parents are encouraged to be actively involved in their child's education at school;*
- C. that parents are full partners in their child's education and are included, as appropriate, in decision-making and on advisory committees to assist in the education of their child;*
- D. the carrying out of other activities, such as those described in section 1118 of the ESEA.*

- 8. The school district will inform parents and parental organizations of the purpose and existence of the parental information and resource center in the state, known as *Parents as Partners in Education*.

PART II. DISTRICT'S IMPLEMENTATION OF DISTRICT WIDE PARENTAL INVOLVEMENT POLICY

The district will implement or accomplish each of the following components. [Section 1118(a)(2), ESEA.]

- 1. The district will take the following actions to involve parents in the joint development of its district wide parental involvement plan under section 1112 of the ESEA:

Annual reviews, evaluations, committee meetings, parent-teacher conferences

- 2. The district will take the following actions to involve parents in the process of school review and improvement under section 1116 of the ESEA:

Annual reviews, evaluations, committee meetings, parent-teacher conferences

- 3. The district will provide the following necessary coordination, technical assistance, and other support to assist Title I, Part A schools in planning and implementing effective parental involvement activities to improve student academic achievement and school performance:

Annual reviews, evaluations, committee meetings, parent-teacher conferences

- 4. The district will coordinate and integrate parental involvement strategies in Part A with parental involvement strategies under the following other programs: [Insert programs, such as: Head Start, Reading First, Early Reading First, Even Start, Parents As Teachers, Home Instruction Program for Preschool Youngsters, and State-operated preschool programs], by:

Head Start

- 5. The district will take the following actions to conduct, with the involvement of

parents, an annual evaluation of the content and effectiveness of this parental involvement policy in improving the quality of its Title I, Part A schools. The evaluation will include identifying barriers to greater participation by parents in parental involvement activities (with particular attention to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background). The school district will use the findings of the evaluation about its parental involvement policy and activities to design strategies for more effective parental involvement, and to revise, if necessary (and with the involvement of parents) its parental involvement policies.

A year-end survey will be distributed from the building sites to the parents to complete and returned for compilation and analysis

6. The district will build the schools' and parent's capacity for strong parental involvement, in order to ensure effective involvement of parents and to support a partnership among the school involved, parents, and the community to improve student academic achievement, through the following activities specifically described below:

- A. The school district will, with the assistance of its Title I, Part A schools, provide assistance to parents of children served by the school district or school, as appropriate, in understanding topics such as the following, by undertaking the actions described in this paragraph --

- i. the State's academic content standards,
- ii. the State's student academic achievement standards,
- iii. the State and local academic assessments including alternate assessments,
- iv. the requirements of Part A,
- v. how to monitor their child's progress, and
- vi. how to work with educators:

OSDE conferences and workshops, parent-teacher conferences, literacy night events, and back to school nights

- B. The school district will, with the assistance of its schools, provide materials and training to help parents work with their children to improve their children's academic achievement, such as literacy training, and using technology, as appropriate, to foster parental involvement, by:

Parent-teacher conferences and literacy workshops

- C. The school district will, with the assistance of its schools and parents, educate its teachers, pupil services personnel, principals and other staff, in how to reach out to, communicate with, and work with parents as equal partners, in the value and utility of contributions of parents,

and in how to implement and coordinate parent programs and build ties between parents and schools, by:

Parent-teacher conferences, training sessions through parent-teacher organizations, literacy workshops, school newsletters

- D. The school district will, to the extent feasible and appropriate, coordinate and integrate parental involvement programs and activities with Head Start, Reading First, Early Reading First, Even Start, Home Instruction Programs for Preschool Youngsters, the Parents as Teachers Program, and public preschool and other programs, and conduct other activities, such as parent resource centers, that encourage and support parents in more fully participating in the education of their children, by:

Providing information and encouraging participation in the above-mentioned programs

- E. The school district will take the following actions to ensure that information related to the school and parent- programs, meetings, and other activities, is sent to the parents of participating children in an understandable and uniform format, including alternative formats upon request, and, to the extent practicable, in a language the parents can understand:

Personal and automated phone calls, letters to parents, newsletters and websites will be used to communicate this information

PART III. DISCRETIONARY DISTRICT WIDE PARENTAL INVOLVEMENT POLICY COMPONENTS

The district incorporates as a part of its policy the following discretionary components:

1. involving parents in the development of training for teachers, principals, and other educators to improve the effectiveness of that training;
2. providing necessary literacy training for parents from Title I, Part A funds, if the school district has exhausted all other reasonably available sources of funding for that training;
3. paying reasonable and necessary expenses associated with parental involvement activities, including transportation and child care costs, to enable parents to participate in school-related meetings and training sessions;
4. training parents to enhance the involvement of other parents;
5. in order to maximize parental involvement and participation in their children's education, arranging school meetings at a variety of times, or conducting in-home conferences between teachers or other educators, who work directly with participating children, with parents who are unable to attend those conferences at school;

6. adopting and implementing model approaches to improving parental involvement;
7. establishing a district wide parent advisory council to provide advice on all matters related to parental involvement in Title I, Part A programs;
8. developing appropriate roles for community-based organizations and businesses, including faith-based organizations, in parental involvement activities; and
9. providing other reasonable support for parental involvement activities under section 1118 as parents may request.

PART IV. ADOPTION

This *District Wide Parental Involvement Policy* has been developed jointly with, and agreed on with, parents of children participating in Title I, Part A programs, as evidenced by the minutes of the meeting in which parental involvement and the manner in which that would be achieved was deliberated.

The school district will distribute this policy to all parents of participating Title I, Part A children annually.

**STUDENT ORGANIZATIONS:
SPONSORSHIP AND CLOSED STUDENT FORUMS**

The board of education is committed to the proposition that student participation in student activities and organizations can advance educational goals and otherwise benefit students and that district policies should further students' opportunities for participation. The board also is mindful that the primary purpose of the district is to educate its students and that the board must maintain control and oversight of students' activities and experiences while attending school.

Therefore, the board has determined that only school-sponsored student organizations, as that term is defined in this policy, will be permitted to utilize school facilities for meetings or other functions. The board intends by this policy to create a "closed forum" in regard to the utilization of school facilities by student organizations and groups, in that the use of school facilities by student organizations and groups will be restricted to those student organizations and groups that are sponsored by the district as provided in this policy.

School-Sponsored Student Organizations

The district may sponsor student organizations that the board determines are in furtherance of and consistent with the district's educational objectives and directly related to its curriculum ("school-sponsored student organizations").

An organization shall be considered to be directly related to the district's curriculum: (1) if the subject matter of the group is actually taught or will soon be taught; (2) if the subject matter of the group concerns the body of courses as a whole; (3) if participation in the group is required for a particular course; (4) if participation in the group results in academic credit; or (5) if it is part of or an adjunct to student government, relating directly to the curriculum, to the extent that it addresses concerns, solicits opinions and formulates proposals pertaining to the body of courses offered by the school.

School-sponsored student organizations shall have a faculty sponsor, whose teaching field, education, background or other expertise is reasonably related to the purpose and goals of the group, and who shall receive extra-duty compensation.

Application for district sponsorship shall be made by the proposed faculty sponsor and at least five (5) students who intend to participate in the organization. Each proposed student organization will submit its membership requirements, organizational structure and provisions of a constitution or other document setting out its organizational purpose and structure, subject to approval by the superintendent.

After the proposed organization and its constitution have received preliminary approval from the superintendent, the board shall review and approve or disapprove the organization for sponsorship based on the standards set out in this policy and, if requested, on an opinion rendered by the district's legal counsel that the proposed organization meets the standards of this policy.

Only school-sponsored student organizations shall be permitted to meet in or otherwise use school facilities.

**Notice Regarding Student Organizations and
Parental Right to Withhold Permission to Participate**

The district shall provide annual notice to parents and guardians about school-sponsored student organizations in the student handbook and on the district's website. The notice shall include at least a list of the names of the clubs or organizations; their individual missions or purposes; and the names of the faculty advisors.

If school-sponsored student organizations are created or formed after the annual notice is distributed, the district shall send supplemental notice through the district's website or by any other means it deems appropriate. Like the annual notice, the supplemental notice shall specify at least the name of the organization, its mission or purpose and the name of its faculty advisor.

Parents and guardians may notify the district that they are withholding permission for their student to join or participate in one or more extracurricular school-sponsored student organizations. However, parents and guardians may not withhold permission for student participation in clubs and organizations that are necessary for a required course of instruction.

Parents and guardians are solely responsible for preventing their student from participating in a club or organization for which they have withheld their permission. Parents and guardians are also solely responsible for retrieving their student from attendance at a club or organization for which permission has been withheld.

Nothing in this policy prevents a club or organization from meeting when a student who is not authorized to participate is present.

The district may, but is not required to provide annual (or supplemental) notice to parents and guardians about independent student-organized groups, as they are not groups directed or controlled by the district. If notice of such groups is provided, the notice shall indicate that the group is an independent student-organized group.

TITLE IX AND SCHOOL SPONSORED SPORTS

Congress enacted Title IX of the Education Amendments in 1972. This Federal law prohibits discrimination on the basis of sex in any education program or activity when the district is a recipient of federal financial assistance, regardless of whether federal funds are received in connection with athletics. The district is committed to the prevention and avoidance of gender discrimination in connection with school sponsored extracurricular activities, including school sponsored sports. To ensure compliance by the district's athletic program with the mandates of Title IX the board requires:

- Annual notification to all staff members regarding the district's commitment to non-discrimination in all of its programs and activities, including school sponsored sports;
- Publication of the grievance procedure applicable to complaints of discrimination in the student handbook and on the school's website with identification of the district's Title IX Coordinator, to enable parents or students to notify the board and administration of any instances of perceived discrimination in the district's programs or activities, including sports;
- The conduct of a student interest survey no less than every three (3) years to ensure that the sports offered by the district are responsive to student interest;
- Annual review of the district's sports-related facilities to ensure that the district does not discriminate on the basis of gender in the planning, construction or assignment of facilities for practice or competition;
- Annual training of all administrative and athletic staff (and other staff as appropriate) regarding their respective responsibilities for providing programs free of discrimination and reporting perceived discrimination;
- Overseeing expenditures for school sponsored sports to ensure that monies spent neither discriminate nor perpetuate past discrimination with respect to coaches salaries, equipment, supplies, facilities or in other areas in which expenditures are made; and,
- Non-discriminatory treatment of athletes in all areas of participation in the district's sports program including, but not limited to: travel, uniforms, use of facilities, scheduling of games, equipment, supplies, spirit support, and coaching assignments.

CONCUSSIONS AND HEAD INJURIES POLICY FOR STUDENT ATHLETES

The board of education recognizes that concussions and head injuries can result from contact sports and can have serious consequences if not properly evaluated and treated. Therefore, consistent with state law, the district will inform and educate student athletes and their parents/guardians of the nature and risk of concussions or head injuries, including the dangers associated with continuing to play after a concussion or head injury through this policy and the associated information sheets and forms.

Specifically, on an annual basis, and prior to a student athlete's participation in any athletic practices or competitions, a concussion and head injury information sheet shall be distributed to the student and his or her parent/guardian. Attached to the information sheet shall be an acknowledgement form which the student and his or her parent/guardian must sign to verify that they have read the information sheets and understand the content and warnings. The completed acknowledgement forms shall be returned to the principal's office prior to the student athlete's participation in practice or competition during that school year. The student-athlete may not practice or compete until the form has been received.

If the district's coaching personnel suspect that a student athlete has sustained a concussion or head injury during a practice or game, the coach shall immediately remove that student from participation and direct the student to obtain a physical and mental status examination by a licensed health care provider selected by the student's parent or legal guardian. The board of education has defined a licensed health care provider as follows: M.D. (Medical Doctor) and D.O. (Doctor of Osteopathy). This licensed health care provider must be trained in the evaluation and management of concussions. The district shall not be financially responsible for any health care bills associated with the examination.

After suffering a concussion, a student's physical and cognitive activities should be carefully managed and monitored by the licensed health care professional. Pursuant to OKLA. STAT. tit. 70, § 24-155, any student athlete removed from participation shall not be allowed to participate in practices or games until he or she is evaluated by a licensed health care provider and receives the provider's written clearance to return to participation, a copy of which shall be provided to the district.

CONDUCT AT STUDENT PERFORMANCES

This policy defines expected behavior of participants at student performances.

This policy addresses performances both on and off campus for all student groups, including but not limited to the following: bands, cheerleaders, choruses, dance troupes, drill teams, theater companies, flag teams, drum majors, talent shows, mascots, and other ensembles. Membership or participation within these extracurricular activities is a privilege and students are expected to demonstrate appropriate and respectful behavior. The fact that an activity is not specifically listed is not a valid excuse for acting in a way that is not respectful of the district and consistent with its code of student conduct.

Suggestive, offensive, vulgar verbiage of musical lyrics and/or choreography is inappropriate. Because student performances are an integral part of the curriculum, performances (including music, theatre, and choreography) must be pre-approved by sponsors and administrative representatives before any practices and/or competitions begin. Lewd gestures, inappropriate comments, foul language, and suggestive or vulgar movements are among those behaviors which are not acceptable while practicing or performing as a member of a school group.

All behavior exhibited by students should reflect high standards. The sponsor has the responsibility to determine acceptable behavior under the direction of the school principal.

STUDENT DIABETES CARE AND MANAGEMENT

Purpose

The purpose of this policy is to implement the requirements of the Diabetes Management in Schools Act (“Act”), OKLA. STAT. tit. 70 § 1210.196.1 et seq.

Definitions

For purposes of this policy, these terms have the following definitions:

“Diabetes medical management plan” means the document a student’s personal health care team develops that identifies the health services the student may need at school

“Personal health care team” means the team responsible for managing a student’s diabetes and includes the principal or designee, the school nurse (if assigned to the school), the assistant, if any, the parent or guardian of the student, and to the extent practicable, the physician responsible for the student’s diabetes treatment.

“School nurse” means a certified school nurse, a registered nurse contracting with the district or a public health nurse.

“Volunteer diabetes care assistant” means a district employee who has volunteered to be a diabetes care assistant and successfully completed the training required by this policy and state law.

Policy

Any district employee aware of a student who has diabetes-related needs while at school or while participating in school activities will promptly advise the principal or designee. The parent of any student who will have diabetes-related needs at school or in school activities should promptly advise the school principal or designee.

A personal health care team will develop a written Diabetes Medical Management Plan (“Plan”) for each student who will seek care for diabetes while at school or while participating in a school activity. The Plan will identify the health services the student may need at school. Each member of the student’s personal health care team, including the parent, will sign the Plan. The personal health care team will review the Plan at least annually. The school nurse at the school in which the student is enrolled, if any, will assist the student with the management of his or her diabetes care as provided in the Plan. If the school does not have an assigned school nurse, the principal will make a reasonable effort to find one or more district employees willing to serve as a volunteer diabetes care assistant (“Assistant”) to assist the student with diabetes care as provided in the student’s Plan. The principal will make a reasonable effort to ensure that a school nurse or Assistant is available at the school to assist the student when needed. The district will not restrict the assignment

of a student with diabetes to a particular school based on the presence of a school nurse or assistant.

District personnel will request that the parent provide written authorization for the school nurse or assistant to have access to the student's physician at all times. The district will maintain the Plan and related documentation as student health records.

Before undertaking responsibilities as an assistant, a volunteer must first complete training provided by the school nurse or the State Department of Health in accordance with the Act. The training will include instruction in the following:

- Recognizing the symptoms of hypoglycemia and hyperglycemia;
- Understanding the proper action to take if the student's blood glucose is outside the range indicated in the Plan;
- Understanding the details of the Plan;
- Performing finger sticks to check blood glucose levels, check urine ketone levels and record the results of those checks;
- Properly administering insulin and glucagon and recording the results of the administration;
- Recognizing complications that require the assistant to seek emergency assistance; and
- Understanding the recommended schedules and food intake for the student's meals and snacks, the effect of physical activity on blood glucose and the proper action to be taken if the student's schedule is disrupted.

To continue as an Assistant, the volunteer must annually demonstrate competency in the above training. The school nurse, principal or designee will maintain a copy of the training guidelines and the records associated with the training.

With parent permission, the district will provide each district employee responsible for supervising or transporting a student with diabetes a form with the following information:

- Student's name;
- Telephone number of a contact person in case of an emergency involving the student; and
- Potential emergencies that may occur due to the diabetes and appropriate responses to such emergencies.

Any district employee provided the above information will be informed of applicable health privacy policies.

In accordance with his or her individual Plan and this policy, a student may attend to the management of his or her diabetes, which may include:

- Performing blood glucose level checks;
- Administering insulin through the student's insulin delivery system;
- Treating hypoglycemia and hyperglycemia;
- Unless changed in accordance with this policy, possessing on his or her person at any time, any supplies or specialized equipment necessary to monitor and care for his or her diabetes; and
- Otherwise attending to the management of his or her diabetes in the classroom, any area of the school or grounds, or at any school related activity.

The school administration will provide a private area where the student can attend to his or her diabetes-related needs.

Students who manage their diabetes and personally possess the necessary specialized equipment and supplies under this policy are prohibited from sharing or playing with their equipment or supplies. If a student engages in these activities, the parent will be contacted and a meeting of the personal health care team will be scheduled. The district is not responsible for safeguarding the specialized equipment or supplies of a student who personally possesses those items.

Students with diabetes are encouraged to wear Medic Alert bracelets or necklaces.

No district employee will be subject to any penalty or disciplinary action for refusing to serve as an assistant. No district employee will be subject to any disciplinary proceeding resulting from any action taken in compliance with this policy. Any employee acting in accordance with this policy and law will be immune from civil liability unless the employee's actions rise to the level of reckless or intentional conduct. A school nurse will not be held responsible or subject to disciplinary action for the actions of an assistant.
